

U. S. LIBERTY WORLD'S LIGHT, SAYS M'ADOO

Unites Vision and Courage
on Fellow Townsmen.

Huntington, N. Y., July 5.—Yielding to the holy demand of Independence day exercises, William Gibbs McAdoo, one of the standard bearers of the democratic movement, has called since his name was placed in nomination, today delivered his first public utterance since the convention began.

Speaking extemporaneously, he took as his theme patriotism and devotion to the vision of liberty held by the revolutionary fathers.

"We are here today because a small group of patriots met together and had the vision to conceive a great idea and the courage to carry it out," he said.

United States Torch of Liberty.

"No progress has ever been achieved without vision, courage, and performance. What we achieved in 1776 was the torch of liberty, and it is that torch which has been a flaming torch for the whole world."

He turned toward a group of civil war veterans seated on the platform and continued:

"These men responded to the call to vindicate liberty and as a result organized a great union strong enough to vindicate democracy and destroy autocracy when the call came."

"The men who died in Flanders gave their lives for a similar purpose, for the vision of preserving liberty, and must not fail to dedicate ourselves to their vision."

Need Vision and Courage.

"When I look about and see the suffering abroad, not only among our allies but among our late enemies, it is enough to wring the heart of humanity."

"We must draw from this a lesson in the necessity of having vision and courage. There is no progress standing still."

Referring to the place where the revolutionary hero, Nathan Hale, was captured by the British, he said:

"Huntington is a place particularly fit for reflecting ourselves to this vision. We drink again here the spirit of Nathan Hale, immortalized in the greatest utterance I know of: 'I only regret that I have but one life to give for my country.' This is a spirit every American citizen should cultivate."

**MILWAUKEE ELK
SLAIN AS TRAIN
SMASHES AUTO**

A man believed to be Fred F. Barnes, formerly a salesman for the American Oak Leather company, 211 West Madison street, was killed last night when his automobile was struck by a Milwaukee Central train at a crossing north of Riverside.

The body was brought to Hursen's mortuary rooms at 1820 South Michigan street.

M. Kelly, engineer of the train; L. Hawley, conductor, and T. F. Ikes, baggage agent, told the police they did not see Barnes' automobile, because of darkness. They heard a crash, however, and upon investigation found the wrecked automobile and the body.

Henry Fells, 54 years old, of 208 East Nineteenth street, was killed yesterday in a fall from an automobile.

Mrs. William Klingele, 61 years old, 215 Michigan avenue, and A. B. Matson, 239 Kedzie boulevard, were bruised when their automobile was struck by a street car in Oak Park.

A steering knuckle broke as Edward McGonigle's automobile was rounding a corner in Jackson park, and it soon rolled into a ditch. Cuts and bruises were sustained by McGonigle, an employee of the city water department, living at 1435 Kenwood avenue, Mrs. McGonigle, and their three young children, Edward, Mary, and Anna.

John Char of Robey, Ind., died of injuries suffered when he was struck by an auto.

**Two Strikers Charged
with Murder Conspiracy**

Waterbury, Conn., July 5.—(Special.)—Two strikers, charged with conspiring to take Chief of Police George J. Nease's life with a bomb, were held by the superior court under bonds of \$10,000 each after an examination today by Judge McGrath. Bernardo Fallon and Mike Kalachuk are the men named.

Immediately after court they were sent to the county jail at New Britain under a heavy guard. The indictment was exhibited in the courtroom.

**Three Senior
Accountants**

Herbert F. French & Company, of Boston, require the services of three high grade Senior Accountants on its permanent staff.

Applicants must have had a broad experience in public accounting, auditing and Federal taxes, and experience in handling juniors.

C. P. A. preferred, but not absolutely essential.

Apply by letter only, stating experience fully and salary desired.

"Days of Real Sport"—Modernized

Chicago boys enjoying their vacation at the summer camp of St. Viator's college, Bourbonnais, Ill.

One hundred Chicago boys, ages 14 to 16, are spending part of their vacation at the summer camp conducted by St. Viator's college, at Bourbonnais, Ill.

The boys are not required to wear uniforms—a bathing suit will do. They are taught some of the military drill, and spend most of the time in fishing, boating, and hunting.

"It's more a picnic than anything else," said the Rev. A. L. Girard, founder of the camp. "It is not being run for profit and we would like to have all the poor boys in the city spend a week or two with us."

Andrew Bracken and Capt. John H. Newman of Chicago are in charge. John P. Lynch is official story teller; Victor Waszko, chef, and J. R. Elmer, lie heads the entertainment committee.

**FOREIGN NEWS
IN BRIEF**

SPA.—Allies hold up the Spa conference until Germans produce officials who can answer allied questions on disarmament. Abruptly adjourn meeting until today, when Germans promise to have officials on hand.

CONSTANTINOPLE.—Greeks shatter Kemal Pasha's defense and spread over nationalist circles in Constantinople. Greeks go to average burning of Greek villages from which 600 refugees are on their way to Constantinople.

SANTIAGO, Chile.—All the newspapers of this and other leading cities of South America had editorial words of praise for the United States on Independence day, lauded its institutions, and urged closer trade relations.

**ILLINOIS VOICES
ARE DROWNED BY
BAND AT FRISCO**

[BY A STAFF CORRESPONDENT.]

St. Louis, Mo., July 5.—(Special.)—One small fry in the contingent for the Illinois delegates—the bandmaster will insist on shooting the state anthem, "Hail to the Illinois," with the reckless tempo of a San Francisco taxi cab careening down a 33 per cent grade street. Three times Saturday the Illinoisans were all set to give the convention a musical treat, but the jazz spoiled it.

Indiana, with deep feeling, had pulled out all its Caruso and barber shop minors and had stuffed them into the ancient ditty, "On the Banks of the Wabash."

Then Illinois stood up. The bandmaster tore into some tune. Few such it was. But it was exceeding the speed limit. Not a vocalist could flip the running board of the song. So they sat down and sent up a message asking an encore, slowed down to a six mile an hour pace.

The bandmaster obliged, but still the old hymn was traveling on a high speed. The delegates gave up in disgust. John McGillen, the Chicago sentimentalist, wiped a tear from his eye.

Another note to the band leader. "Please slow it down." He sent back word, "All right, I'll play it like a dirge."

Thus encouraged, the Illinois contingent stood up for the third time. Led by Carter H. Harrison, Dennis J. Egan, John Powers, and Charles Boeschstein, it opened its several mouths and slowly warbled:

"By its waters, gently flowing," "That was as far as it got. The band recognized it as 'Illinois, Illinois.'"

Carter Harrison threw up his hands in despair. "Rotten, rotten," he shouted. So did John F. O'Malley and the rest of the sweet singers.

"It's an outrageous massacre," yelled James Igoe.

**COX'S MANAGER
LAYS DEADLOCK
TO PAYROLLERS**

Auditorium, San Francisco, Cal., July 5.—During the recess there was circulated about the floor copies of a telegram from Manager Moore to the Cox campaign to Daniel C. Roper of New York charging that "a crowd of government employees and treasury officials are, for their own personal ends and in defiance of Mr. McAdoo's expressed wishes, improperly using his name to create a deadlock in this convention."

Charging several delegations were packed with government employees, holding out for the nomination of McAdoo, Moore's telegram charged that the action of the pay roll brigade is creating a national scandal to the ruin of the democratic party.

"They know there is no chance to nominate him," the telegram continued, "but hope to bring about a situation where they can deal off the delegates to some candidate where their jobs will be protected."

CHICAGO

U. S. TO RETURN ENEMY PROPERTY HELD DURING WAR

Rules Are Formulated by
Custodian.

New York, July 5.—(Special.)—Francis P. Garvan, alien property custodian, announced today that \$150,000,000 of property seized as enemy owned during the war would be returned on formal application to owners who fill in qualifications entitling them to recover their holdings under the amendment to the trading with the enemy act passed by congress on June 5.

Among the classes who may obtain the release of their property are American women who married alien enemies, enemy diplomats, aliens who were interned, citizens of new nations created from enemy territory by the treaty of peace, women of allied or neutral countries who married enemy subjects, and Americans who were forced to remain in Germany during the war.

Claims of Creditors.

The amendment also authorizes the return of property mistakenly seized and allows American creditors to bring claims against enemy debtors whose property was seized.

The statement of the alien property custodian describes in detail the following classes now entitled to recover their American estates:

"A woman who at the time of her marriage was a subject or citizen of a nation which has remained neutral in the war, or of a nation which was associated with the United States in the prosecution of said war, and who prior to April 6, 1917, intermarried with a subject or citizen of Germany or Austria-Hungary."

"A woman who at the time of her marriage was a subject or citizen of the United States and who has been acquired by birth in the United States and who prior to April 6, 1917, intermarried with a subject or citizen of Germany or Austria-Hungary."

"A citizen or subject of Germany or Austria or Hungary or Austria-Hungary who was, at the time of the severance of diplomatic relations between the United States and such nation, respectively, accredited to the United States."

"A partnership association, or other incorporated body of individuals outside the United States, or a corporation incorporated within any country other than the United States, and was entirely owned at such time by subjects or citizens of nations, states, or free cities other than Germany or Austria or Hungary or Austria-Hungary, and is so owned at the time of the return of its money or other property heretofore seized."

The alien property custodian will continue as the supervisory officer and administrator with full authority concerning the return of property.

**Oglesby Coming to Talk
with Illinois Leaders**

Springfield, Ill., July 5.—(Special.)—Lieut. Gov. John G. Oglesby left tonight for Chicago, where he will confer tomorrow with former Gov. Charles S. Deneen and Senators McCormick and Lawrence Sherman relative to Oglesby's campaign platform.

**British, in Bosphorus,
Destroy 50 Turkish Guns**

CONSTANTINOPLE, July 5.—(United News.)—Following the recent bombardment of Imidli, the British proceeded up the Bosphorus and sent ashore a landing party, which captured and destroyed fifty Turkish guns.

ARRAIGNS MEN

Suffrage Leader Who Says Men,
After Nineteen Centuries, Are
Not "Worthy That Women
Should Vote for Them."

MRS. O. H. P. BELMONT.

Mrs. Belmont says men have shown, since they still have wars, that they are unfit to rule. She asks women not to vote in November.

**U. S. AND BRITISH
MAY BUY FRENCH
TOBACCO TRUST**

New York, July 5.—(Special.)—According to reports in tobacco circles today, American and British tobacco interests, with bankers in the United States, England, France, and Belgium, are negotiating with the French government for the purchase of that government's tobacco monopoly for \$400,000,000.

The report stated that France was considering the sale of her tobacco monopoly in order to meet her share of the \$500,000,000 of Anglo-French bonds due Oct. 1.

The names of George J. Whelan, president of the Tobacco Products corporation; James B. Duke of the British-American Tobacco company, and Thomas F. Ryan were mentioned in the report.

Mr. Ryan tonight said he expected to see Mr. Duke and Mr. Whelan tomorrow and that he would sail Thursday for a two month stay in Paris. Asked whether the purchase of the French tobacco monopoly would be included in his business transactions in Paris, Mr. Ryan said he did not know.

The French monopoly, it was said, earns a net profit of \$50,000,000 annually.

The banks involved in the transaction are said to be in New York, Chicago, London, Paris, and Belgium.

**Tuesday, a Dark Horse,
if Race Remains Open**

San Francisco, Cal., July 5.—Senator Robinson of Arkansas, convention chairman, said he saw no sign of a decision between the leaders.

"But if one of them is not nominated," Mr. Robinson said, "a dark horse will be chosen on Tuesday."

In the present situation Senator Robinson said he was taking pains to take no part, because of his official position.

WITHHOLD VOTE, MRS. BELMONT BEGS OF WOMEN

Men Unfit to Be Elected,
She Declares.

New York, July 5.—(Special.)—Mrs. Oliver H. P. Belmont, one of the leaders of the fight for suffrage, asked American women to refrain from voting at the presidential election.

In her statement she says:

"Don't let either of the two old parties use you as catspaws. Ignore their battery. Be strong and self-respecting. Hand back to the wily leaders the empty honors offered bringing for you, catspaws. They are but crumbs from the bossed table."

Man After 19 Centuries.

"After nineteen centuries of man's government, the only way that they have found to settle international questions affecting the lives and happiness of the human race is by recognized international murder."

"After nineteen centuries of man's government, the only way they have found to settle domestic problems like the high cost of living is by regulating profiteering, by protecting and condoning the whole system of exploitation which practically denies to the multitude the necessities of everyday life."

Calls Old Parties Deceitful.

"Are you able to recognize fraud, deception, stupidity, and dishonesty? If you are, you will not be found allied with a system which is decayed."

"Put a high price on your freedom! Keep away from the Democrats and the Republican parties. You women have had nothing to do with selecting their candidates."

"By this refusal to consort with admitted evils you will get new strength. You will cleanse your own power for good. You will be free to act at the right moment. Don't vote! Husband your new power!"

MONROE BUILDING STATE

HAYS HERE TODAY TO START G. O. P. MACHINE GOING

Western National Commit-
teemen to Meet Chief.

With the arrival of Will H. Hays, chairman of the Republican national committee, early today, the first western meeting of the committee that has for its task the election of Senator Warren G. Harding, president of the United States will be held at the Auditorium hotel. A few meetings of the eastern members of the committee have been held in New York City, but the meeting today is regarded as the most important, as Chairman Hays expects to spend much of his time in the Chicago headquarters.

Several members of the committee arrived last night, among them being Joseph B. Keating, national committeeman of Indiana, who, with David Mulvane, committeeman from Kansas, is expected to take an active part in the western work. According to Scott C. Bone, director of publicity, only a few of the eastern members of the committee will come to Chicago.

Routine Work Today.

The only work on the schedule for today, Mr. Bone said, is that of organization and other routine work. Later in the week managers of the Republican campaign in different parts of the country will be named and the permanent organization completed.

Members of the committee who arrived last night were enthusiastic over the prospects of Senator Harding, and refused to take seriously the threatened opposition of the new third party.

Looks Rosy for Harding.

"Everything looks rosy now," declared Mr. Bone. "I do not believe that either the talked of third party or the Nonpartisan league will cut materially into the strength of the Republicans."

"Senator Harding is gaining strength all the time. It is surprising how popular he is in his home town. He is certainly an exception to the rule that a man has to go out of his own town to be respected at his true worth."

"One of his friends sent in a sentence describing Senator Harding that I believe is the best I have heard. He said: 'Harding has the ruggedness of Grover Cleveland combined with the sweetness of character of William McKinley.'"

Senator William S. Kenyon and other members of the senate "slush" fund committee are expected to arrive in Chicago today in readiness for the reopening of their investigations here tomorrow. No announcement has so far been made as to the nature of the investigations, but it is said that William Loeb, former secretary to President Roosevelt, will be asked to come to Chicago to testify. He was the Wood campaign manager in the east.

ask our people to plant their feet in secure and forward paths once more. I would not be here in the capacity which has inspired your greetings. Normal men and back to normalcy will steady a civilization which has been fevered by the supreme upheaval of the world."

The crowd cheered with the greatest enthusiasm when, at the end of his speech, the senator introduced Mrs. Harding as a "regular scout who knows all my faults, but sticks to me anyhow." Mrs. Harding stepped forward and acknowledged the applause with a wave of her hand. The senator

then introduced his pre-convention campaign manager, Harry M. Daugherty, as "one of the greatest scrapers in existence." After the speechmaking was concluded, Senator Harding and Mrs. Harding took a position on the steps and shook thousands of welcoming hands.

Likes Front Porch Idea.

The first test of the front porch plan was a marked success, and the senator is more determined than ever to adhere to it, he said today. He declared he had three or four invitations to speak and that he might accept some of them during the campaign.

Senator Harding partially confirmed published reports that there is to be an "inner executive committee" to direct the Republican campaign. It probably will be composed of four or five members of the committee of twenty-one recently chosen. The purpose of it will be to produce "quick action" without necessitating the calling together of the whole committee. Senator Harding said the formation of such a "managing committee" was discussed at the time the committee of twenty-one was formed.

He said that nothing definite had been decided about the personnel of

the committee, but stated that it would undoubtedly include Chairman Hays. The published reports said former Senator John W. Weeks of Massachusetts, A. T. Hart of Kentucky, Charles D. Hilles of New York, and Harry Daugherty would constitute the committee.

Montgomery Ward Under Fire on U. S. Complaint

Washington, D. C., July 5.—(Special.)—The federal trade commission has cited Montgomery Ward & Co., Chicago mail order house, in a formal complaint of unfair competition in the sale of liquid roofing cement. The cement was advertised as containing no coal tar, although it did contain coal tar, it is charged.

Oklahoma Congressman, Morgan, Dies at Danville

Washington, D. C., July 5.—Representative Dick I. Morgan of Oklahoma died at Danville, Ill., last night from lobar pneumonia. He had represented the Eighth Oklahoma district in congress for the last twelve years. His home was at Woodward, Okla.

FEDERAL BANK CHIEF FOR LOANS TO AID CANNERS

Washington, D. C., July 5.—(Special.)—In a letter to the National Canners' association W. P. G. Harding, governor of the federal reserve board, makes it clear that the board approves the making of loans by banks to aid the canning industry, but disapproves hoarding.

In the course of his letter he said: "There is a wide difference between the granting of credit by banks for crop moving purposes at a time when crops are moving, or for canning or cold storage purposes at those seasons of the year when goods naturally go into cold storage or pass into the hands of the canners, and the making of loans on agricultural products at periods when they should be marketed and not hoarded, or in lending on canning or cold storage products when they ought to be sold to jobbers and retailers instead of being held indefinitely for higher prices."

(By Special Cable.)
Copyright: 1920: By the Tribune Company.

SPA, July 5.—When the German delegates entered the conference room today there was not a word of greeting—not an introduction of any sort, not a single name mentioned.

"We are not optimistic, but we are not hopeless," was the way Foreign Minister Simons expressed how the delegation felt. "We were at one of the far ends of the table, but it was not like Versailles. The atmosphere was not warm, but that was hardly to be expected. We believe the allies are willing to deliberate with us."

Gen. Gessler Already Summoned.
"We went there expecting to discuss financial problems, but as Louis Jacquesy last night told us some military matters would be taken up we had already telegraphed to Minister Gessler of the reichwehr and to Gen. von Seeckt, head of the army, to come as soon as possible to Spa."

Chairman Delacroix read an order of the day indicating military questions would be discussed first. Chancellor Fehrenbach replied that Herr Gessler and Gen. von Seeckt would be here probably on Wednesday at the latest. Herr Fehrenbach also expressed satisfaction that at last we could speak man to man, instead of exchanging notes. He suggested that I speak upon military matters, but Mr. Lloyd George especially was intent on hearing Herr Gessler, and the suggestion was declined.

This attitude of the English section in opposition to the willingness of the French to waive Herr Gessler's presence was interpreted generally as indicating an inclination on the part of the British to reopen the question whether German armed forces must immediately be reduced to 100,000.

Position of Germans.
The Germans say Herr Gessler and Gen. von Seeckt were not included in the Spa delegation because of the decision at Boulogne that this question would not be reopened. The Germans say the inclusion of German military leaders in the Spa delegation could have been construed as an avowed declaration of intent to force reconsideration of the Boulogne decision.

"The chancellor also suggested in connection with the trial of Germans accused of war crimes by the allies that Minister of Justice Heine come also to Spa, and it was arranged he would be here on Thursday morning when this question will be taken up. Then the English lord chancellor and the French minister of justice also will be present."

1920 HEARS STORY OF 1861

Left to right—Nathan Fuller, Col. S. F. Stewart, and Lucile Fuller.

GEN. ROBERT E. LEE was characterized as "a traitor to his country" and Gen. Sherman was praised for his march from Atlanta to the sea by Col. S. F. Stewart, yesterday at the eighth annual reunion of the midwest chapter of the Alden Society of America. About 100 descendants of John and Priscilla Alden attended the reunion, which was held at Col. Stewart's residence.

"Gen. Lee has been unreasonably and undeservedly eulogized," said Col. Stewart, who served in the Union army during the civil war. "He was nothing more nor less than a traitor. It is wrong to honor him. Several generals in the northern army were greater than he. He was whipped at Appomattox, and they took nearly everything he had."

"On the other hand, Sheridan and Sherman have been censured for their destructive raids. They were right in what they did, for the destruction they wrought was purely for military purposes."

Five generations of the Alden family were present at the meeting. Of those present there were selected to be photographed as representative of the five generations the following: Mrs. Sarah E. Brown of Evanston, seventh generation; Raleigh A. Daly, Chicago, eighth generation; Mrs. Gertrude Alden Neely, Chicago, ninth generation; Charles F. Alden, Chicago, tenth generation, and Nathan Fuller, Chicago, eleventh generation.

Among others present were Frank A. Alden of 21 South Euclid avenue, Oak Park, president of the midwest chapter, and Fred Bentley, whose son, Paul Cody Bentley, was the first American killed in the world war.

Resolutions were adopted and forwarded to President Wilson asking him to set aside Dec. 31 as a national holiday, to be known as Forefathers' day.

U. S. NAVY MEN TRAIN TO BRING BIG AIRSHIP HOME

British Show How to Fly Big R-38.

BY JOHN S. STEELE.
(Chicago Tribune Foreign News Service.)
(By Special Cable.)
(Copyright: 1920: By the Tribune Company.)

HOWDEN, Yorkshire, July 5.—Out in the middle of a lonely moor, about five miles from this charming little village and many more miles from anywhere that matters, nine United States navy officers and twenty enlisted men are marooned for a year or more. They will form the crew of the giant airship R-38, which the United States has bought from the British government. The R-38 is now being built at Shortt's factory at Bedford, near London, and will be completed some time this fall. It will not be ready to fly home, however, until next summer, and its crew will hardly be ready to take her before that time.

Commander L. M. Maxfield, U. S. N., who is in charge of the little detachment up here, told me that he and his men were all seaplane and airplane men, and until they came over here knew nothing about airships "and the

airship game," he said, "is a very different one from the airplane game."

Trained by British.

They are being trained by the British air force at the giant aerodrome here, where are housed the R-34, which flew to America and back, and three other ships of similar type. When the weather permits they are taken flying in these vessels, and when it isn't flying weather they keep busy at work on the engines, on the body, and on other parts of the craft, and attend lectures by British officers on the science of airship flying.

The R-38 when she is delivered will be the first rigid airship to come into the possession of the United States. She will be similar in type to the R-34, but considerably larger, and unless some other nation springs a surprise in the meantime it will be the largest airship in the world.

In the meantime the enlisted men are wishing that they were a little nearer civilization.

Can Go to Hull.

On days off the men can go to Hull or Leeds, each about forty miles away. Hull is a port and Leeds a big manufacturing town. There are movie shows and vaudeville and girls in both these towns.

Commander Maxfield tells me that there is no complaint among the men. They are all picked, and they are proud of being selected to bring home the world's biggest airship. They are working hard to learn how, and there is healthy competition among them to attain proficiency in their work.

REDS VICTORS ON CRIMEAN FRONT, MOSCOW REPORTS

LONDON, July 5.—The bolsheviks have broken the enemy resistance on the Crimean front, according to an official soviet statement under Sunday's date received from Moscow today.

The bolsheviks occupied a number of villages twenty-five miles southwest of Orskhov, in the southern Yekaterinoslav region, the statement says.

Poles Report Victory.

PARIS, July 5.—Bolshevik attacks in the Lake Szade region have been repulsed by the Poles, according to advices from Warsaw today. The Poles captured a brigade staff and important war materials, the advices add.

Poland Ruled by Council.

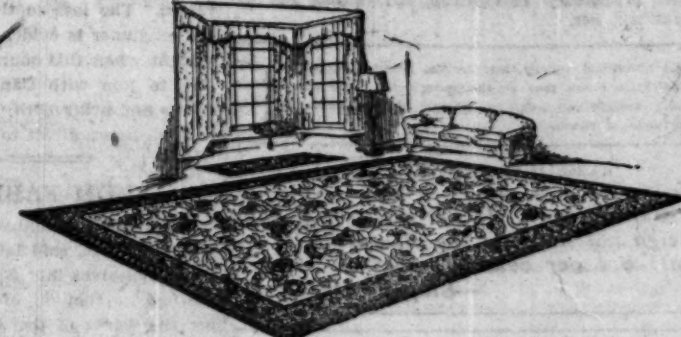

WARSAW, July 1.—[By the Associated Press.]—Supreme power in the government of Poland and full military authority has been vested in a national council of defense created by the Polish diet today.

The council is composed of President Pilsudski, chairman; Gen. Leszinski, minister of war; Stanislas Haller, chief of staff; M. Trompynski, president of the diet; Premier Grabski, three members of the cabinet, and nine leaders of the diet.

Formation of this council was decided upon owing to the menace of the bolshevik invasion of Galicia and the Ukraine.

TOBEY-MADE FURNITURE

Our new home in New York

The corner of Fifth Avenue and Fifty-third Street is the new Tobey home in New York.

In announcing this new location we take pleasure in recording the success of a distinctly Chicago product in the most exclusive precincts of Manhattan.

New York connoisseurs have followed Chicago's lead in stamping Tobey-made furniture with the mark of their approval and have intrusted our new New York Store with many important commissions.

Mr. S. F. Douglas and Mr. Paul Merbitz, originally with our Chicago store, are already serving there many of our former Chicago patrons who have moved to New York.

Our new showrooms are unusually beautiful and we invite you to visit them when you are in New York.

GEARY UP TODAY FOR MURDER; WILL ASK FOR DELAY

State Will Oppose Effort to Drag Out Case.

When the case of Gene Geary is called before Chief Justice Robert E. Coates of the Criminal court today for his latest killing,

the murder of Harry J. Reckas a month ago, the defense will ask for a delay. "Thomas D. Nash, who was appointed attorney for the accused by Judge Crowe, last night announced he would ask a continuance on the ground that he has not had time to prepare his client's defense."

When Geary was arraigned on June 5 he pleaded not guilty and objected to the trial being set for today.

Wants Couple of Months. "Can't you set my trial for a little later, Judge? I haven't been given a fair chance," he pleaded. "The newspapers are using me rotten and have got everybody down on me. It looks as though I'm being railroaded."

Asked how much time he needed he said at least a couple of months. He stated he didn't know if all his witnesses would be in town in a month. He was assured that all his rights would be protected, and told to be ready for trial today. A week later Attorney Nash was appointed to defend him.

Busy on Cardinella Case.

The attorney will inform the court that he has been actively engaged in the trial of Salvatore Cardinella, who was found guilty of murder and sentenced to death last week, and that the Cardinella trial took all his time. The murder of Reckas occurred on May 27 in the O'Brien's Horn Palace saloon at 4165 South Halsted street. That was less than three months after Geary's acquittal of the murder of Leonard Trippel, a chauffeur, whom he killed in a fight in the Twenty-second street district.

JOHN DILL ROBERTSON,
Commissioner of Health.

MARRIAGE WRIT ON BODY OF MAN FOUND IN LAKE

A marriage license in the pocket of a winter overcoat on the body of a man found in the lake Saturday bore the name of Hudson McCullough. The license showed McCullough had married a Miss Lillian Augustine Dougherty at Youngstown, O., on Oct. 30, 1919. A telegram to Youngstown brought back the reply that Miss Dougherty no longer resided there, but had a mother at McChesneytown, Pa. A letter has been sent the mother and the inquest continued until July 14.

MARSHALL FIELD & COMPANY

An Invitation

DELEGATES to the convale of Elks, and their friends, are cordially invited to make use of the many facilities this Store offers.

The Store, one of the show places of Chicago, has an inviting atmosphere all its own. It holds an educational relationship to the community that bears semblance to that of an international exposition.

Here is one of the focal spots for sightseers; a place for quiet and rest in spaces provided for the purpose; a convenient location for appointments; a center of information. Various Bureaus supply the many incidental wants of visitors.

For those who so desire, guides will be supplied for a tour of the Store.

"You haven't seen Chicago if you haven't seen 'Field's'."

Annual Summer Sale of Towels

TOWELS for use at Summer Cottages, at the Beach, for Clubs, for Boarding Houses and Hotels, and for the Home are included in this Sale, which was instituted for the purpose of supplying at reduced prices the increased demand for Towels of certain grades during the Summer months.

Many of the Towels in this Sale are from our own mills at Fieldale, Virginia; these are made with especial care and we are able to recommend them highly.

Bath Towels in the Sale from \$4.50 to \$10.50 doz.; Face Towels, \$2.75 to \$18 doz.

Second Floor, State Street.

Highly Attractive Values in Women's Summer Frocks

VOILE is the fabric most in demand at the present moment, and this assortment of novelty voile frocks, most of them in backgrounds of navy and black, is indeed a worth while selling.

All are simply made with dainty white collars and cuffs of organdie or net. There are many charming touches such as bands on the skirt with accordion-plaited ruffling; over-drapes plain or draped; soft girdles of crushed taffeta that fasten with a large crisp-looking bow in the back or with a careless knotting at the side.

All Frocks in this lot are marked at \$18.75.

Moderately Priced Dress Section, Sixth Floor, South.

Of Taffeta and Silk Crepe Is This Afternoon Frock

THESE adaptable materials, in the deepest of midnight blues, compose an extremely smart Dress that can be worn on almost every occasion. These fabrics are particularly lovely for wear on warm days when one desires to wear something dark, yet cool enough for Summer.

Simplicity of line marks the Frock. The skirt, with its three wide tucks, is simply shirred, while the blouse, crossing gracefully in the front, has scalloped collar and cuffs of blue taffeta to complete it.

This Frock marked at \$75.

Women's Frocks, Sixth Floor, South, State.

"Soft Spun" Sheets and Cases at Special Prices

THIS Bedding needs no introduction to many home-makers—it has been popular for many years because of its fine texture; its regularity of weave, its wearing quality, and particularly because of its fine appearance after being laundered. The prices now in effect indicate a substantial saving in purchasing a supply now.

Sheets, 81x99, \$3.50 each. Cases, 45x38 1/2, 75c each.

Second Floor, North State, and Basement.

For Our Visitors

THE many conveniences and comforts supplied by this Store are at the service of our visitors.

Whether you wish to shop or not, you will find this Store, because of its inspirational and educational character, well worth a tour.

B. P. O. E. Convention Information Bureau

A Special Bureau, devoted to the service of Elks and their friends, is maintained on the First Floor, at the Washington Street entrance. Here the most minute information on practically any topic will be cheerfully given. Visitors are invited to make use of this service.

A Personal Service Bureau, also near the Washington Street entrance, will provide expert shoppers for those who, because of lack of time, with assistance or would prefer to shop by proxy. Here, too, Guides will be supplied for those desiring to tour the Store.

Third Floor Facilities

This Third Floor is cozy and comfortable as a spot for resting, reading or writing—and just the place for the keeping of appointments. Some of the conveniences at the service of visitors:

Reading Tables—Supplied with standard magazines, Chicago newspapers, and the leading papers from other large cities.

Rest Room for Women.

Women's Writing Room.

Men's Writing Room.

Children's Room.

Medical Room—Fully equipped to meet emergencies.

Regular Information Bureau—Giving all information regarding trains, steamers, street cars, points of interest, etc.

Accommodation Bureau—Where telegraph, cable or telephone messages are cared for; theater tickets supplied at box-office prices.

Post Office Substation—Where money orders are issued and paid; letters registered, etc.

On Other Floors

Checkrooms—On First Floor, near South State and North Wabash entrances, where parcels and baggage may be checked.

Playroom for Children—Fourth Floor, in Toy Section.

Tea Rooms—The entire Seventh Floor devoted to restaurants famed for their beauty, service and home-like cooking.

Service for Men

Men's Grill—Sixth Floor of the Store for Men, exclusively a store of men's apparel and the accessories of dress, in a separate building, on Washington Street, opposite the Main Store. The Grill appeals to men because of the club-like seclusion and comfort it provides. A delightful place for breakfast or luncheon.

Sunny Beaches Beckon

A DIP in Lake Michigan is a popular ending for a long, warm day. And an attractive Bathing Suit detracts not at all from the enjoyment of the swim. The Bathing Slip pictured is of black silk poplin, stitched with rows of colored wool. Priced at \$11.50.

Wool jersey Suits in various colors and combinations in very smart patterns. The Suit sketched is \$11.

The Cape illustrated is made of heavy awning striped canvas. Price, \$10.50.

Caps of gay colors with wired rubber bows or cut flowers; tight-fitting like diving caps. Caps marked from 50c up. Hats 75c up.

Swims Apparel, Sixth Floor.

Skirts of Surf Satin or Voile for Beach Wear

WASH SKIRTS of white surf satin are very popular for the Summer costume because of their glossy finish. They can be laundered any number of times and always look fresh and new.

Most of the Skirts are simply made with perhaps only a pocket or novel belt, button rimmed, to relieve them. Priced from \$4.75 to \$7.75.

A new note is introduced with a very smart little peach voile Skirt, pictured at the right. The sheerest quality of voile is used, in bright Summer colors. These are particularly good for beach or country wear. The Skirt is marked \$8.75.

Women's Skirt Section, Sixth Floor, South.

Notes of the Store

"The Girl in the Cap and Apron" is giving advice and suggestions this week on the subject of "Picnic Lunches." There will be no demonstrations or lectures, but she is prepared to answer all questions on this subject this week.

Household Utilities, Ninth Floor.

A very attractive booklet on "Infants' Wear" has been prepared, giving in detail our facilities and resources in this important branch of outfitting. It is available on request, either by phone or mail, or in person, to the Infants' Wear Section, Fourth Floor, or to the Advertising Bureau.

Many a visitor has found the Second Floor, Wabash Avenue, a wonderful place to wander around, admiring and marveling, from table to table, from piece to piece, of rare and beautiful ware. Strangers will find here all that is most beautiful in Artware, in China, in Lamps and Glassware, as well as the many fine paintings of the Galleries.

Many visitors will find the Rooms on the Eighth Floor an attraction. There are three series—one in the South State Room, one in North State, and one in Middle Wabash, all completely furnished in the best prevailing decorative taste.

Blue Rose Will Remind You of Pleasant Days

THE fragrance of crushed flowers brings back memories of this time when blossoms are fresh. The illusive odor of Blue Rose will remind you of Field's and your trip to Chicago during the Elks' convention.

These delightful toilet preparations are the products of our own laboratories. Blue Rose Talcum, 50c; Face Powder, \$1.75; Bath Soap, 50c.

First Floor, North State.

At the Height of the Season —New Voiles

JUST now, when stocks are commencing to show the inroads of a season of heavy selling, we are fortunate in obtaining some hundreds of pieces of new and attractive Printed Voiles, in attractive designs on navy blue or copenhagen foundation. The patterns are dainty and highly desirable for the cool summery frocks women are wearing these days.

The showing is the more remarkable for the shortage that has hitherto been apparent in these colors.

A large and varied assortment of designs at two prices—\$1 and \$1.25 yard.

Second Floor, Middle, State Street.

White English Voiles at a Lowered Price—\$1.25 Yd.

SHEER, dainty, delightfully soft are these Voiles, in a number of attractive patterns in checks, stripes, and fancy weaves. The materials will make lovely cool frocks or blouses; they are from a group in which some of the patterns have been completely sold out, and this method is taken of "evening up" the quantities.

Many women will want to get enough for several frocks—and these patterns could very well be used for children's clothes, too.

Second Floor, Middle, State Street.

"How to Enjoy Hot Weather"— A Lesson in Summer Utilities

THE Household Utilities Section is showing a special display of devices and supplies designed to help make the warm weather easier to bear for the home-maker.

Among them are the Electric Cookerette, a handy little range with two burners and an oven; Electric Grills, Toasters, Chafing Dishes, and Percolators; all these, by their use of electric current as fuel, do away with the overheated kitchen.

Then there is a "Quick Mix"

Drink Mixer, an especially handy thing to have where many guests are present; it mixes the delicious Summer drinks to perfection, with a minimum of physical exertion.

Aerovids and Aladdin Food Containers keep meals hot or cold for service later in the day.

Thermal Jars and Thermos Bottles are useful for travelers. Fireless Cookers need no watching, and are an aid in keeping the house cool.

Camp Stoves, Sterno, one and two burner; Picnic Supplies, Baskets, and other typical Summer accessories are shown.

There is also the Auto-Vac Ice Cream Freezer, which requires no crank turning, and which will freeze cream in 40 minutes.

This Display will be in place from July 6 to 17.

Household Utilities, Ninth Floor.

ATIN NATIONS ARE EAGER FOR U. S. FRIENDSHIP

SANTIAGO, Chile, July 4.—[Delayed.]—The newspaper El Mercurio, in a special issue, is "not only memorable for Americans, but has become one of the most days of humanity," referred to the future foreign policy of the United States, saying:

"There is open on one side the traditional road which George Washington showed when he recommended the maintenance of a strong isolation, free from interference of European complications. But world evolution, on the other

hand, opens a new and wide road of solidarity among all nations.

"Whatever course the United States adopts, the people of Chile know that in one case or the other we shall continue to receive from the great republic demonstrations of cordial friendship similar to those given us of late years and which permit us today to salute this anniversary with fervent good wishes."

Growth in Commerce.

MONTEVIDEO, Uruguay, July 5.—All newspapers today greeted the anniversary of the independence of the United States and described the great progress made in that country. They called attention to the valuable assistance given to the cause of democracy by American intervention in the European war.

The newspapers printed an enthusiastic eulogy of President Wilson. Some of them published large extra editions containing a plea for closer commercial relations between the United States and Uruguay. Commenting on the growth of commerce between the two countries, the newspapers said that

during 1914 only three vessels flying the flag of the United States arrived at Montevideo. In 1919 there were 154 and in the period since Jan. 1 of this year 103 already had entered the port.

Owing to the illness of Robert Emmett Joffrey, U. S. minister to Uruguay, the usual reception at the legation was suspended today.

Pays Tribute to Wilson.

BUENOS AIRES, Argentina, July 4.—[Delayed.]—Argentine newspapers today paid homage to American independence day. Special articles describing the progress of the United States and pictures of North American patriots are displayed prominently.

La Epoca, organ of the government, said North America won universal respect by consecrating itself to the world war. It paid tribute to President Wilson and expressed hope for the country's continued greatness.

Members of the American colony celebrated the national anniversary Monday night with a banquet, at which 500 guests will participate.

WAR CRIPPLES AT WASHINGTON CELEBRATE 4TH

[BY A STAFF CORRESPONDENT.] Washington, D. C., July 5.—[Special.]—For the first time in years there was no central celebration today of the "Glorious Fourth" in the capital, no parade along Pennsylvania avenue, no pageant at the capitol, and no fireworks tonight.

Community celebrations, however, were held in various sections of the city, beginning with a bicycle race at the Polo grounds yesterday morning. At the Walter Reed Army hospital the observance of the nation's 144th birthday began with a concert last night. This morning officers, nurses, and

patients, many of the latter in wheel chairs, paraded through the wards and grounds to the athletic field for twenty-five events, including a fifty yard hop for men with one leg or with two artificial legs, a one legged hurdle race, and an artificial leg walk to be judged by form only.

Entrants were classed according to amputations of both legs or of one leg, either above or below the knee.

Following the athletic events the quartermaster detachment played baseball with the medical detachment and the afternoon was devoted to a baseball game between Walter Reed and the naval torpedo station of Alexandria, Va.

Gen. John J. Pershing sent the following message to former service men:

"The anniversary of our national independence brings to our minds and hearts the obligations that rest upon us as a people. The sublime conception of our forefathers created upon this continent a new nation founded upon human liberty.

"To the men of the legion whose blood and sacrifices have proved their devotion we owe the deepest debt of

gratitude and it is to them that we look for constant inspiration, that our efforts to maintain for ever a land where all men shall be free and equal may be supported by the same patriotism that gave them the victory in the great war."

CONFERENCE FOR CENTRAL AMERICA UNION ON SEPT. 15

SAN SALVADOR, Salvador, July 4.—[Delayed.]—Delegates from Salvador, Honduras, Costa Rica, Guatemala, and Nicaragua will meet in this city on Sept. 15 to discuss the basis of a union of Central America.

Invitations to this conference were issued recently by the Salvadorean government and met with a unanimous response, the government of Honduras being especially cordial in its reply.

Satisfaction is expressed at the prospect of replacement of the Central American court of justice by the proposed union.

PRICES have tumbled, for the time being. Everybody saw it coming. Most tried to stave it off until they could get out from under. But it will do us all good. It will break the tension, and let things get back to normal.

WEATHER DOES TO JOY OF HOLIDAY CROWDS

Just Right for City's
Sane Celebration.

Chicago went to bed last night worn out celebrating the double Fourth, and praising the weather man, who made the holiday unusual. The early morning until midnight they celebrated, with noise and oratory, parades, and children in star-spangled costumes and Elk stunts and athletic feats. Prof. Henry J. Cox, distributor, smiled and took the Fourth of July in most cities usually a hot day. Sometimes it is "the day in years." And generally, when the balloons were going up, the ice cream and lemonade were sold, it would rain.

Hot Day for Celebrants.
The heat was not at any time yesterday. The thermometer never climbed above 80. It was down as low as 78. The day was comfortably cool—more than a drop or two of rain anywhere—and Chicago called the Fourth it has ever known.

The all day celebrations were held at Independence park, North La Salle avenue and Irving Park. The day began with a procession of children attired in the stars and stripes. The youngsters were led by 8 year old Elizabeth McHugh, 2714 Cullom avenue, who carried a red, white, and blue umbrella. The parade was followed by the stars and stripes.

Amateur athletic events were held in the afternoon during which the veteran clown of the circus, convulsed spectators with his antics. Fireworks and a communique in the evening ended the day.

Tableaux Depict History.
Tableaux depicting the history of the United States were the principal feature of the celebration at Dvorak park and West Twenty-first street. F. J. Stepina, president of the American State bank, read the Declaration of Independence.

Dvorak park observed the day with a program at North Monticello avenue. The day was led by the Parental school band, and Al. Edward R. Arnold, believed the principal address for boys and girls were staged at Dvorak, after which balloons were shot and sent aloft.

Judge David Speaks.
Judge Joseph E. David of the Supreme court was the speaker of the day at the celebration of the Chicago Historical institute. A band concert, community singing and folk dancing were the features of the celebration. Athletic drills by classes of boys and girls were part of the program at Dvorak park, West Chicago avenue.

SANTIAGO FIGHTER

Gunner Who Served in 1898
Fires Salute Commemorating
Battle.

WILLIAM ELLIOTT.

(TRIBUNE Photo.)

William Elliott, gunner's mate on the U. S. S. Commodore, not only celebrated July 4 and 5. He celebrated July 3 as well, firing a salute of twenty-one guns in commemoration of the destruction of the Spanish fleet off Santiago in 1898. Elliott was there in 1898. He was "there," too, in 1917 and 1918.

and Noble street. E. E. Rogers delivered a patriotic speech during the evening.

A flag raising, band concert and races and games were held in Rutherford park. A similar program was followed in Kosciuszko park.

The Fourth was observed at Hull house last night with a neighborhood party. There was street dancing, and Italian, Greek and Russian songs.

Movies Play Big Part.
Motion pictures with patriotic subjects formed the principal section of the program at Hamlin park. Band concerts, games, and fireworks were the program in Holstein, Portage, Stanton, Stanford, and Pulaski parks, and at Cornell square and Hegewisch.

Wilmette's Independence day celebration was held on the beach under the auspices of the Wilmette park board. Swimming races, wheelbarrow races, games, and pie eating contests featured the day.

Members of company K, 3d regiment, Illinois reserve militia, participated in a sham battle during the celebration in Berwyn. Speeches were made by Mayor George H. Anderson and A. C. Wood, American legion commander.

Annie Lalley, 3 month old daughter of Martin Lalley, 1115 Belden avenue, was injured when a firecracker was thrown from the second story of a house in Belden avenue, just west of Lincoln avenue as the Lalleys were passing. The missile alighted on the infant's bonnet and exploded, damaging the right eye so seriously that the sight may be destroyed.

Several Hurt at Aurora.
A man was killed, three others were

shot, and a fifth was badly burned in accidents in Aurora.

The dead man is Charles Blonquist, a returned soldier. He was watching some fireworks while crossing the tracks of the Chicago, Burlington and Quincy railroad, and was struck by a passing train.

Otto Herman, 18, and his brother, Herman Herman, 16, were severely injured when the toy cannon with which they were playing was accidentally discharged. Otto had his thumb torn off and while running away from the scene stumbled and fell, breaking three ribs and injuring himself internally. Herman was shot through the back.

**Four Alleged Pickpockets
Nabbed Mixing with Elks**

Four alleged pickpockets were arrested yesterday at the Union station in a crowd of Elks, who had gathered to welcome an incoming delegation from Philadelphia. They gave the names of Sam Shapiro, Sam Rupt, and Albert Crystal, respectively of 2848, 2902, and 1331 West Roosevelt road, and David Bergman, 1420 South Sawyer avenue. All have police records.

DEATH OF AUTO ACCIDENT INJURED.
Bucyrus, O., July 5.—(Special.)—Samuel Kapt, 40 years old, of 1436 Sawyer avenue, Chicago, who was injured here in an automobile accident June 25, when his car upset on the Scioto trail, died of his injuries last night. The body was taken back to Chicago.

TRANSPORTATION COST HAS JUMPED ALL OVER WORLD

BY OSCAR E. HEWITT.

Surface line fares were boosted last week and fares on the elevated are scheduled for a jump this week. The street car fare has increased 50 per cent; the L fare 50 per cent, with another raise anticipated.

In an effort to extend and enlarge its commerce, the British board of trade, which is a governmental department, has investigated transportation costs in a large part of the world. From its official journal has been summarized some of the more striking data on passenger fares and freight rates on railroads.

European Figures.
Taking the European allied coun-

tries first, the board of trade asserts that since the beginning of the war the charges for transportation have developed as follows:

FRANCE—Passenger fares have been increased as follows: First class, 80 per cent; second class, 75 per cent; and third class, 70 per cent. For 1920 there is a further advance, but it has been sanctioned only for this year. The provisional increase in freight rates for 1920, with a corresponding advance in subsidiary charges, brings up the total increase in rates to 140 per cent.

On passenger fares there is a proviso. There has been allowed a graduated system of abatements in passenger fares for members of families—the larger the family the larger the abatement. Soldiers with 50 per cent disability or over are carried at quarter fares.

BELGIUM—Both passenger fares and freight rates have been advanced 100 per cent over pre-war charges.

Italy Up 120 Per Cent.

ITALY—Passenger fares, first class, 120 per cent; second class, 100 per cent; and third class, 80 per cent. Freight rates, 120 per cent.

SWITZERLAND—Passenger fares have been advanced 100 per cent and freight rates about 150 per cent.

200 Per Cent in Sweden.

SWEDEN—The graduated system of passenger fares has been advanced, for first class 200 per cent; second class, 150 per cent; and third class, 100 per cent. The freight rate advance is about 200 per cent.

NORWAY—Passenger rates, first class, 150 per cent; second class, 80

per cent; third class, 60 per cent. Freight rates, about 150 per cent.

SPAIN—The actual increase for both rates and fares has not been more than 15 per cent, but the following increases are proposed: First class passengers, 50 per cent; second class, 45 per cent; and third class, 45 per cent. Freight, 50 per cent.

Regarding the fares and rates of the central powers the English investigators are not so definite. Some excerpts follow:

GERMANY—A new increase of 100 per cent on freight in Germany came into force last April. There is some doubt about the total increase. According to the Paris Journal Officiel, the increases in passenger rates up to April were 35 to 110 per cent, and in freight rates, 125 per cent. There is an additional transport tax.

AUSTRIA—In so far as can be ascertained passenger fares in Austria have increased about 200 per cent and freight rates by about 300 per cent. Demurrage rates have increased by 200 per cent.

HUNGARY—Has advanced passenger fares by about 240 per cent and freight rates by about 300 per cent. But further increases have been proposed.

CANADA—Average increase in rates and fares 40 per cent. Further increase of 30 to 40 per cent suggested.

NEW SOUTH WALES—Fares have gone up 5 to 50 per cent and rates 15 per cent.

VICTORIA—Passenger rates 5 to 10 per cent, parcels 10 per cent, and freight 5 to 33 1/3 per cent. Further increases proposed.

EGYPT—Fares have advanced 100 per cent and rates 50 to 150 per cent.

SOUTH AUSTRALIA—Freight rates

posed and the present position is uncertain.

Russian Situation.

Regarding Russia, the trade counts present the information they obtained, but frankly assert that it is not reliable. Part of the statement on this subject reads as follows:

"Information from Russia cannot be depended upon. But it may be of interest to mention that the advance in Russian passenger fares is stated to be about 1,400 per cent and the advance in freight rates 2,400 per cent. These figures indicate depreciated currency, rather than increased working costs, though no doubt there has been a substantial real rise in costs."

From some of the British possessions the following is presented:

NEW SOUTH WALES—Fares have gone up 5 to 50 per cent and rates 15 per cent.

VICTORIA—Passenger rates 5 to 10 per cent, parcels 10 per cent, and freight 5 to 33 1/3 per cent. Further increases proposed.

EGYPT—Fares have advanced 100 per cent and rates 50 to 150 per cent.

SOUTH AUSTRALIA—Freight rates

have been advanced 10 per cent, although grain rates remain unchanged.

40 Per Cent United States Average.

The British figure that the average railroad increase in the United States has been 40 per cent in both freight and passenger charges. On the state owned Central Railroad of Brazil the both fares and rates, while the Argentine railways have boosted freight charges about 23 1/3 per cent.

The British board of trade omits information regarding increases in England, but a local American railway official said yesterday that freight rates in England were increased from 25 to 100 per cent last January, and with an additional charge of 6 to 12 cents a ton on certain classifications, regardless of distance. He said that passenger rates were advanced 50 per cent during the war.

This data proves nothing regarding the fairness of the surface and elevated fares in Chicago. But this, in connection with the information published by the Tribune last Thursday and Friday on the street car fares in various American cities, should aid the Chicago car rider to get his own viewpoint of the local situation.

Why a FEDERAL Electric Washer?

Because

The material and the quality are put into it.

Because

It is scientifically built to clean the clothes with the least wear, the least effort and the least expense.

Because

It is made in Chicago—for Chicago people—by Chicago people—it's "Chicago's Favorite."

Because

Chicago people know merit, and insist on having it.

Because

Our Service Department is prompt, efficient and permanent.

WEEKS SHATTER HAUNTED KEMAL DEFENSE IN ASIA

to Avenge Burning of
Villages in Interior.

BY LARRY RUE.

Chicago Tribune Foreign News Service.
[By Special Cable.]
Constantinople, July 5.—Six hundred
Greek villages near
Pasha bands, are arriving in
Constantinople. The fighting on the
Greek peninsula is merely guerilla
warfare on a small scale.
The American relief supply
is quiet and evacuation by the
Turks is improbable.

United States Destroyers Busy.
United States destroyers are making
weekly trips to Mudania to keep com-
munications open with Americans in
Constantinople and Konia, although the na-
tionalists are forbidding the permanent
mooring of an American boat there
because of the risk it would be mis-
taken for British, if the latter attempt
landing.
Following the landing of a Greek di-
vision at Panderna the Greeks went to
punish the nationalist bands as close
as 100 miles from Pera. Greek suc-
cesses already have plunged the na-
tionalists in Constantinople into gloom.
The statement of a former
Greek enthusiast and military expert
that the leader would depend consider-
ably on his defense plan, which has
been shattered hopelessly already.

Talk British Mandate.
Speculation at the sublime porte to-
day on possible allied plans to impose
a mandate on the Turks was
aroused by comment on the feasi-
bility of a British mandate. If Kemal
is defeated and not captured, he
probably will figure in a pan-Islamic
organization.

Report of Avlona's Fall
to Insurgents Is Denied
Washington, D. C., July 5.—Reports
that Avlona via Belgrade that Al-
banian insurgents had captured Avlona
was denied in an official dispatch re-
ceived from the Italian embassy to-
day from Rome.
The message said the city was strong-
ly held by Italian troops.
Dario Alotti, who was sent to Al-
bania by the Italian government and to
open conversations with the Albanian
government. The
speech added that Premier Giolitti's
revelations on Italian independence
had produced a strong impression.

ELWELL MURDER STILL BAFFLES ALL NEW YORK

New York, July 5.—[Special.]—"A
standstill" is the way District At-
torney Swann described the Elwell case
today. The investigation is going on,
however, under both county and federal
direction.
The prohibition enforcement officials
say that while they had obtained ad-
ditional facts which might connect
Elwell with illicit liquor traffic, noth-
ing had been uncovered to throw any
light on the mystery of the murder.
Several men whose names were with-
held may be questioned at James Shev-
lin's office tomorrow on a theory of the
purchase of thousands of dollars' worth
of liquors in violation of the Volstead
act. Shevlin is chief prohibition agent
here.
It was reported that Mr. Dooling, an
assistant district attorney, has received
additional information about the book-
legging plot, which he will turn over to
Mr. Shevlin.

Hungary Limits Jews in High Schools to 25 Per Cent

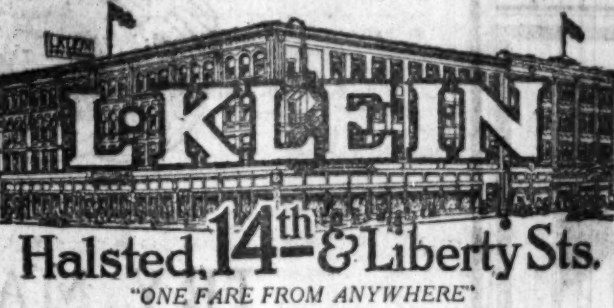

BUDAPEST, July 4.—[Delayed.]—
The minister of education has issued
a ruling that only 25 per cent of the
high school students may be Jews. At
present 50 per cent of the students are
Jews.

France Votes Cabinet Members Salary Raise

PARIS, July 5.—The chamber of
deputies today voted an additional in-
demnity of 20,000 francs a year for
cabinet ministers and 15,000 francs for
secretaries of state in recognition of
the increased cost of living. The vote,
which was taken by the raising of
hands, was almost unanimous.

26,000 Irish Labor Men to Form National Body

DUBLIN, July 5.—Delegates repre-
senting 26,000 trades unionists in con-
ference here today resolved to form a
federation of Irish trades unions on a
national basis.

A lowprice record sale of
United States Government
men's balbriggan shirts and drawers

Shirts -- 33¢
Drawers 43¢

THIS underwear was made for the
American soldiers, and fortunately was
not needed. We bought the surplus at a
saving which permits us to announce these
low record prices.

The shirts are made of fine combed
Egyptian balbriggan; sleeveless, or short
sleeves; pull over style; also short or long sleeves in regular styles, button front.

The drawers are all ankle length. As the prices quoted are about 1/3 to 1/2 of the real worth
of the garments, we reserve the right to limit the quantities in order to prevent dealers from
buying.

On sale today, Tuesday, at 8:30 A. M.

WAIT!

Again we ask the clothes buyers
of Chicago to take a day off in
their clothes buying.

As a matter of fairness to your
pocketbook, don't buy any
clothes anywhere today.

Wait until tomorrow (Wednesday).

During the month of July, to keep
our tailor shops humming with capacity
production, we will tailor clothes to
order for Chicago men at bone-cost of
manufacture.

This means the elimination of both
retailer's and wholesaler's profits.

Watch tonight's News and tomor-
row's Tribune for full details.

Our Retail Sales Department will
be closed all day today (Tuesday)—so
we may prepare for this extraordinary
tailoring event.

EACH SAYS OTHER WROTE \$40,000 THREAT TO SMALL

Palmer and Caudell Both
Held for Blackmail.

The Len Small case and the use of Chicago's homicide squad is clearing it up interested Chicago police officials yesterday.

Small, candidate for the Republican nomination for governor, received a letter threatening to kill him and his family unless he dropped \$40,000 at a designated place on the Kankakee-Monmouth road.

Small took the sheriff of the county into his confidence. The Kankakee police were not aware, they said, that the letter had been sent until they read of it in Chicago newspapers yesterday.

Appeals to Mayor Thompson. The gubernatorial candidate went to his friend, Mayor Thompson, it is said, and asked his advice. Thompson is said to have conferred with Capt. Percy Coffin, late of the civil service commission.

Capt. Coffin is reported to have called on Chief Garrity and asked for the services of Sergt. John Norton and some of his men of the homicide squad. Norton took with him four of the best men in his command, Detectives Alcock, O'Neil, Parr, and Philip Carroll. They conferred with Small, the sheriff, and the state's attorney of Kankakee county. The letter writer had directed Small to drop the money where he would see a flag.

Norton proposed to send his men along the road in an auto with a powerful searchlight. His idea was that the searchlight would pick up the flag and blind anybody near it who might be on the watch, while members of the squad could slip into the tall grass. Then Small was to come along, drop a decoy package, and the Chicago detectives would be on hand to seize the extortioner.

No Flag, no Blackmail. The ruse failed because not a soul was seen, nor any flag. The hunters gave it up. On Saturday Norton and his men arrested Byron Caudell of Lebanon, Ky.,

JAPAN PLANNING EXPERT AIR STAFF, COMMERCIAL ROUTES

Washington, D. C., July 5.—[Special.]—According to advices from Tokyo today, Japan is expected to have commercial air routes in the near future if present plans are realized. It is said a well known company in Japan has secured the agency for the Handley-Page hydroplane and the French Breguet hydroplane. The company also will import a Curtiss flying boat. A competent staff of aerial experts has been secured and the firm expects shortly to demonstrate the practicability of the hydroplane as a commercial factor.

a farm hand on the Palmer farm, and Newcomb Palmer. Palmer was taken to Chicago and held incommunicado in a north side detention home.

He said Caudell wrote the letter. He said Caudell was a fugitive from justice. He told of receiving his mail for him. He hinted at things. The police said they believed Caudell was wanted for murder. Yesterday they switched the charge to alleged horse stealing.

Norton went to Kankakee again yesterday to question Caudell. The latter told him Palmer had written the letter. He hinted things about Palmer.

Wholesale Selling Price of Beef in Chicago

MILITARY HONORS WILL BE GIVEN MAJ. GEN. GORGAS

LONDON, July 5.—Full military honors will be accorded at the funeral of Maj. Gen. William C. Gorgas, former surgeon general of the United States army, who died early yesterday. The funeral will be held Friday noon in St. Paul's cathedral. There will be in attendance representatives of King George and the royal family, of the British and American armies and navies, and a delegation of the Royal Society of Medicine. The services are being arranged by the last named organization.

Indifference of Parties Deplored by Educators

Salt Lake City, Utah, July 5.—Educators arriving here today from over the country for the forty-eighth annual convention of the National Education association were discussing to-night resolutions adopted by the conference of state superintendents of public instruction. One of these said: "We deplore the fact that the two great political parties failed to give in their platforms adequate recognition of the importance of education as related to national welfare and security."

ANCONA STRIKE OFF. ANCONA, Italy, July 5.—The general strike which has been in progress here since June 26 has been called off, and conditions in Ancona, which have been more or less disturbed since the recent troop mutiny, are now normal.

TRY MARMON EASE OF RIDING MAKE YOUR OWN TEST

Drive any other car 10 miles at good speed over a rough road.

Then repeat the trip in a Marmon 34.

It will be difficult for you to believe that in the Marmon you have traversed the same road or have driven as fast.

The name Marmon has always been associated in the minds of automobile owners with "easy riding."

And the reasons for Marmon easy riding are to be found in the perfect co-ordination of many factors; light weight and balance; superiority of frame construction; improved spring suspension; correct distribution of weight; minimum of unsprung weight.

In the Marmon 34, each of these important factors is correctly proportioned with reference to every other part.

And the result is instantly apparent in the surefootedness with which the car holds the road, in its freedom from vibration and immunity to road shocks.

We shall appreciate an opportunity to give you a demonstration of what "Marmon easy riding" really means.

POSEN PET TAKES SLA MOTOR J

Town Officials A
Oppositio

Evidence of antagonism against Ladillas, magistrate, is given in which 980 Posen citizens voted against his arrest. The petition came to the Grand Trunk cross together with a statement Mayor Peets of Posen. Hamen had been asked and by the town from his practice of arrests. The sheriff's it has warned the magistrates to go to the petition and the he cited this morning. Hamen's trial on a of finance in office and called in Judge Burn's. The Posen authorities has been acting on his and against their express making his arrests. The magistrate was through the fact twelve his name in on the ball were no candidates for Hamen was confined in a hospital in Blue Is suffering, it was said, of the row which attended Saturday night. He a sentiment and the official him.

Says Arrests are "I believe it is my any one who does not st ing," he said, "and I matter what any one about it." No arrests were made yesterday. When Hamen appeared early in the men from the Blue Is warning all drivers of crossing. The agents a

POSEN PETITION TAKES SLAM AT MOTOR JUSTICE

Town Officials Also Voice
Opposition.

Presence of antagonism in Posen, against Ladillas Hamen, police magistrate, is given in a petition in which 200 Posen citizens have protested against his arrest of motorists at the Grand Trunk crossing there.

The petition came to light yesterday together with a statement issued by Mayor Peetz of Posen asserting that Hamen had been asked repeatedly by the town trustees to desist from his practice of making needless arrests. The sheriff's office also says it has warned the magistrate to stop.

Petition to Go to Court.

The petition and the statement will be filed this morning. It is said, when Hamen's trial on a charge of malfeasance in office and conspiracy is held in Judge Burn's court.

The Posen authorities declare Hamen has been acting on his own initiative and against their expressed desires in making his arrests. Mayor Peetz says the magistrate was elected only through the fact twelve voters wrote his name in on the ballots, since there were no candidates for the office.

Hamen was confined to the St. Francis hospital in Blue Island yesterday, suffering, it was said, from the effects of the row which attended his arrest last night. He admitted public sentiment and the officials were against him.

Says Arrests are Duty.

"I believe it is my duty to arrest anyone who does not stop at the crossing," he said, "and I shall do so no matter what any one else thinks about it."

No arrests were made at the crossing yesterday. When Hamen's agents appeared early in the day they found none from the Blue Island Motor club waiting all drivers to stop at the crossing. The agents soon left.

**TAKEN IN IOWA,
SAID TO ADMIT
GOTHAM MURDER**

New York, July 5.—Charles W. Roebuck, who was arrested near Des Moines, Ia., and brought to this city, charged with the murder of Manuel Gabe, Spaniard and wealthy New York restaurateur, on June 21, has confessed, according to the police, that he killed Gabe for revenge and robbery.

Roebuck admitted, the police say, that he had gone to Gabe's apartment on the latter's guest and that after his host had fallen asleep he had shot him. Roebuck said, according to the police, that a quarrel started in 1917 when he and Gabe were partners. Jewels valued at \$10,000 and \$1,148 in cash were taken from Gabe.

OPEN ROAD

Victor Riley, a Jones School Boy, Off for a Farm Vacation to Recruit Brawn.

Victor Riley left town yesterday with a smile and both arms more or less full of luggage.

Victor is a pupil of the Jones school, and he is going on a vacation. He is accompanied by a lot of other boys, and several other lots of suit cases, grips, telescopes, traveling-bags, packages, bundles, and parcels.

He, and his pals, are on their way to the country. They are going to help the genial farmer with his crops, his herds and horses, his poultry and his pigs.

Victor and the others expect to have a nice time hoeing potatoes and weeds and things, hunting eggs, driving teams and bargains, and killing the pestiferous insects.

They expect to come back with a coat of tan, a strengthened appetite, and something to spend. What's in the luggage? Old clothes, old shoes, books, tooth brushes, and maybe sticking tops, marbles, chewing gum, candy, and some pretty pictures.

**Pioneer Cuban Aviator
Killed When Plane Falls**

HAVANA, July 5.—Jaime Gonzalez, one of the first Cubans to take up flying, was killed when his airplane fell in the outskirts of Havana.

COP IN A RHUM GAME CAPTURES RAIDING BANDITS

Two robbers were captured, one with a bullet in his abdomen, when a trio attempted to hold up the poolroom of Lally Nelson, 344 North Wells street, where Patrolman Joseph Fogarty of the Chicago avenue station was playing rhum, off duty, last night.

The wounded man is James Mulcahy. With his companions he walked into the poolroom and ordered Nelson and his patrons to hold up their hands. Fogarty drew his gun and fired without arising from the card table. The trio fled with Fogarty following, shooting again and again.

At Oak and Wells streets, Detective Sergeant Hanrahan and O'Connell joined the chase and Mulcahy fell wounded. While Policeman Fogarty guarded him, the two detectives continued in pursuit. At this point Thomas Mulligan, identified as a member of the trio, returned to the patrol box where Fogarty awaited the ambulance. He grappled with the policeman and was knocked out in the struggle. The third man escaped. Mulcahy was removed to the Passavant hospital.

A year ago a similar attempt was made to rob the place while Fogarty was playing rhum. He captured "Bob" O'Brien and Pete Kutzie, both of whom are serving sentences in Joliet penitentiary as the result. A diamond ring, worth \$1,000, worn by Nelson was the holdup motive in both instances, the police aver.

(Coming by mail and express every day)

The KNOX Split Straw

This famous hat never had such a season in Chicago.

Always popular, always in good taste, always stylishly conservative, it has been seized upon this year as a contrast to the rough straws which are in such demand.

We can't get them fast enough, but they come by mail and express every day.

MUJIKS REFUSE TO FEED CITIES UNLESS REPAYED

Worthless Rubles Do Not
Encourage Farming.

BY JOHN CLAYTON.
(Chicago Tribune Foreign News Service.)
(By Special Cable.)
(Copyright: 1920: By the Tribune Company.)

PARIS, July 5.—"Give us salt for our bread, give us clothing, give us boots, and give us a fair price for our grain," the peasants have said to the Russian government. "Then we will feed your cities. But when you send your soldiers to take what little we have, when you give us nothing in return for our labor, but a bit of worthless paper, we will not supply you."

And the peasants have made good their threat to such an extent that a farseeing man like Lejave, president of the cooperatives, in urging allied trade, said to me in Moscow: "Before you can get grain from the peasants you must supply them with shoes and clothing. Tell your merchants and your traders the grain is waiting, if they will bring in boots, implements, cloth, salt, and other things the peasants need. But with money they can do nothing."

Government Cannot Help It.
To a large extent the government is powerless to make good its collection of food for the cities. In the first place the peasants will not sow more than they need for themselves, for seedling, and the little bit they can sell on the open market. For a peasant gets 40,000 rubles for 40 pounds of white flour on the market, and 70 rubles for the same quantity from the government.

In the second place the peasants will not bring their grain into the government depots. Practically every bit of food collected there must be obtained by force. And the government is too much occupied with its battles to detail sufficient men back of the lines for food collection.

Peasant Soldiers Won't Fight.
In the third place it is difficult to get soldiers for this work of requisitioning. The peasant troops will not fight against their peasant brothers. Only contingents of workmen, chiefly communist workmen from the cities, can be used in the seizure of food. That

which is collected must go first to the army. For it is by good feeding that the army is kept to strength. The Red army ration is far in excess of that given the workmen at home. The better food in the ranks was the first big recruiting argument, and it must be maintained to prevent desertions to the enemy or to the soldiers' homes. Little is left for the cities and the city workmen.

Throughout Russia great tracts of land lay fallow. In former years a third of all land fit for cultivation was permitted to lie dormant during a year to regain its fertility. Now fully two-thirds is without crops. And it will remain without crops until the government is able to give something else than promises and small scraps of worthless paper in exchange for the produce of its owner.

Terror Keeps Going.
A year ago the government said to the peasants: "We have finished with

The "follow-through"—

Golfers appreciate the importance of the follow-through. It makes a lot of difference in the scores turned in at the end of the day.

The "follow-through" of business is service. Library Bureau salesmanship is nine-tenths service.

The L. B. service-salesman isn't after the biggest order he can get. His aim is to help you devise a practical, workable system for handling your office detail.

Today, for instance, you may want a better way to keep in touch with sales and salesmen. Perhaps your present system does not keep you posted on all the things you would like to know.

The L. B. service-salesman will be glad to analyze your particular problem and suggest a way to solve it. He will demonstrate the value of the L. B. "follow-through".

MONTREAL—GLASGOW

VIA PICTURESQUE ST. LAWRENCE

A great bank's results increased 112% through a printer's suggestion

To every kind of business, Printers are now contributing valuable suggestions

One of the largest New York banks was recently getting out its financial statement for the quarter.

The Printer who was to do the job was called in to "get the copy." He listened to "instructions," but was not satisfied.

"Your financial statement should be one of the best advertisements you have," he said. "It is seen on the check counters at the very moment when your customers and prospective customers are most likely to be influenced. If they read it, it means greater confidence in the bank."

"Why not have the cover and general get-up attractive? Make it more than a mere statistical table. Make people read it."

The idea made a real impression on the bank managers and the Printer was authorized to go ahead.

Over a period of one month, more than twice as many statements were picked up and read by customers as ever before.

The service the present day Printer is giving Printers* no longer look upon their work as simply a problem of getting orders. They consider their job one of producing RESULTS.

*NOTE: In general where the term "Printer" is used in this advertisement it refers not only to the commercial printer, but also to the effect printer, the lithographer, the engraver and the stationer.

Sales totalling \$70,000 from a single booklet and follow-up;

—a factory financed by direct mail material based on a Printer's idea;

—a business increased 50%, order department swamped by returns from an illustrated letter suggested by a Printer;

—these are only a few examples that indicate the standards Printers are setting for themselves.

Yet constructive printing of this sort does not necessarily mean advertising printing. In factory, office and cost forms, Printers everywhere are giving their customers ideas on standardization, method and routine that mean greater business efficiency.

What the U. T. A. means to modern business.

The United Typothetae of America, which counts among its members the 4,500 leading employing Printers of the country, has taken the lead in promoting a closer relationship between Printers and buyers of printing. Under its guidance and that of the National Lithographers' Association, Printers today are developing their experience along broader lines. They are supplying not merely paper and ink and typesetting, but useful suggestions that mean both better printing and real economies.

The U. T. A. is today the largest organization of the kind in the world. Its various educational courses are studied by not less than

6,000 students—more than the combined enrollments of Yale and Princeton Universities. Its text books and reports are recognized as standard at Harvard, Carnegie Institute, and the State Universities of Wisconsin, Nebraska and Washington.

A suggestion to all buyers of printing.

The American Writing Paper Company wishes to place itself squarely behind this work of the U. T. A. The Company feels strongly that the work of this organization is the one outstanding force in the Printing Industry making for progress.

To all buyers of printing the American Writing Paper Company makes these recommendations:

Do not get twenty competitive bids from twenty Printers and give the work to the man with the lowest estimate.

Select your Printer on the basis of service rather than price. Employ him on the same basis as you would a doctor or a lawyer. Give him the facts about your business policies and methods.

Furnish him with a basis for constructive criticisms and suggestions and then maintain a permanent business relationship with him.

Let your Printer co-operate and work with you rather than merely work for you. Be open-minded to your Printer's advice.

Your Printer is the one best qualified to select the right paper for the particular job. He is in a position to help you effect real economies—improve quality—bring RESULTS.

The trade mark of the association of employing printers, one of the greatest organizations of its kind in the world.

Reducing uncertainty in the paper industry

When you buy an electric lamp, a little label on the glass tells you the voltage the lamp requires. The lamp has been standardized and classified. So it is also with a telephone, a camera, a stick of dynamite, a pure drug.

Yet when a Printer buys a ream of paper, he has few facts given by the manufacturer to guide him. The weight is specified, and that is about all. Does it tear easily? Will ink "run" on its surface? Will it turn yellow in sunlight? Will it stand erasing? The Printer has not been supplied with these facts.

New methods in the paper industry To make the facts of manufacture available to Paper Merchants and Printers, the American

Writing Paper Company maintains its great Research Laboratory at a cost of more than \$75,000 a year.

The ideas of the superintendents, foremen and mill men in the 26 mills give the scientists the starting points of many important discoveries. Then after these ideas have been perfected by the Research Laboratory, the mill men put them to practical test and bring them into successful operation.

One thousand of these mill men have been with the Company for more than 10 years; 500 for more than 20; many even longer. These men represent the craft skill in the making of paper that it has taken centuries to perfect. Neither the scientific nor the practical men

are alone sufficient. Their co-operation is ideal.

The Laboratory not only tests the materials that go into the making of paper and standardizes their quality, uniformity and value—but it also inspects the finished product.

The day is near when all paper will be sold, not on the basis of a quick inspection by the buyer, but on the strength of a label or guarantee that will give all the facts that the paper user has a right to know.

The Printer is the creative force in the Printing Industry and should be the one to consult in specifying the grade and finish of paper to be used in any particular work.

It is the policy of the American Writing Paper Company to send its samples to customers through the Printers and Paper Merchants.

"Discovering New Facts About Paper"

All the remarkable accomplishments of the American Writing's Research Laboratory are described in detail in a new book by one of the foremost practical scientists in the United States. This book, "Discovering New Facts About Paper," contains information of the greatest value to everyone who uses or deals in paper. Write to the American Writing Paper Company, Holyoke, Mass., for a complimentary copy.

Lake Forest Women Hold Flower Sales to Aid Charities

Money in Lake Forest is proving it has a practical interest in things horticultural by the establishment of a flower booth in the market square. Every Saturday from 9 o'clock until the close of the day, the booth is open to the public and is presided over by flower vendors. The proceeds are devoted to various charities. Members of the Garden club have been most active in promoting the display, which is donated every Saturday by the many estates along the shore.

One of the most gorgeous arrangements of any summer blossoms, sent to the booth last Saturday morning, was arranged by Miss Louisa Armour at Woodbury Farm. In the center of the sale were Mrs. Albert A. Sprague, Mrs. C. W. Mrs. Jay Morse Ely, Mrs. P. M. Mrs. J. W. Woodruff and Mrs. Keene H. Woodruff.

A great part of society passed the Fourth of July in the country. All the country had special programs. Many of the clubs had celebrations for the children. An outdoor luncheon was served at the Evanston Golf club, and in the afternoon there were various events for the little folk.

Following the luncheon at Westmont, there was a display of fireworks, which specially delighted the children of the club. Mrs. L. Link had her Independence day dinner at the Evanston Golf club, and there were golf events for the men, and a party for the women, and there was a children's entertainment. The Evanston polo team played in Dayton yesterday, so the usual Fourth of July polo match was missing from the day's events.

At Flossmoor and Midlothian there were card parties in the afternoon, for the women and golfing events during the day for the men. There were house guests at almost every Lake Geneva residence over the weekend. Mrs. Homer A. Stillwell entertained her son and daughter-in-law, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place. Mr. and Mrs. John J. Mitchell had as guests their son and daughter-in-law, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place. Mr. and Mrs. John J. Mitchell had as guests their son and daughter-in-law, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place.

At Green Gables Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, entertained Mr. and Mrs. Philip Wrigley of 2466 Lake View avenue, who motored up on Friday. Mr. and Mrs. Charles Wrigley, Mm. Wrigley of Philadelphia, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place.

Mr. and Mrs. Arthur Leath, who are the new owners of the E. K. Bolot, Mrs. H. H. Croft, had as guests Mr. and Mrs. Charles Stewart La. Berge, William Leath and Miss Mary Lucy of Chicago. Mr. Leath also had as guests at the Evanston polo match, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place.

Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place.

Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place.

Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place.

Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place, Mr. and Mrs. John J. Mitchell, of 117 Bellevue place, Mr. and Mrs. W. W. Wellesley H. Stillwell, of 117 Bellevue place.

Ravinia Songsters Present 'Rigoletto' in Spite of Rain

By CHARLES H. GABRIEL JR.

Despite the heavy rain that visited Ravinia last night, "Rigoletto" was given with admirable vim. The orchestra due to the dampness, but, under the direction of Richard Hageman, proved again their ability.

Edith Mason was particularly effective as Gilda. She early gave evidence of her enjoyment of the role by her interpretation of the threadbare "Caro Nome," to which she brought much beauty.

Charles Hackett as the Duke of Mantua demonstrated anew his artistry. His is apparently not a powerful voice, but makes up for the lack through its sweetness of tone and his capable use of it.

Milo Picco was not particularly effective as Rigoletto. Perhaps the weather affected him. He did not approach his "Miserere" of last Saturday night, which was splendid.

Rothier as Sparafucile acted and sang the part in his best vein. He seems to be finding his audiences more appreciative lately and as a result is showing more of the style and ability that must be his to bring the reputation he bears in the east.

The male choruses were good. The slight "fuzziness" which has some what marred their performances is wearing away. The attack, nuance and dynamics of their work last night was better than anything they have done so far.

Tonight "Il Traviatore" will be produced, with Miss Easton as Leonora. Kingston as Giorgio, Miss Genta as Lucia, and Miss Zandoli as the Count di Luna. Patti will conduct.

Miss Margaret Renwick, daughter of Mr. and Mrs. E. A. Renwick, and Allan Conover Brown were married a week ago last night on the lawn of her parents' residence, at 1135 Judson avenue, Evanston. Mr. and Mrs. Brown will live in Rhinelander, Wis.

Francis T. Simmons, Former Lincoln Park Head, Dies

By CHARLES H. GABRIEL JR.

Francis Tolles Simmons, president of the Lincoln park board for many years, died at his home, 4187 Sacramento street, July 5, at the age of 60.

Mr. Simmons was born in Little Compton, R. I., on Sept. 8, 1865, and came to Chicago in 1881 as representative of the Crosby Steam Gauge and Valve company. Later he founded the company that bears his name. He had taken an active interest in public affairs for many years, and it was largely due to his efforts that the recent extension and improvement of Lincoln park and the lake front were effected.

He was a member of the Lincoln park board from 1901 to 1914, serving the last nine years as president. His second term of service on the board began in 1917, and he performed the duties of president until his illness. Death was due to stomach complications.

In 1910 Mr. Simmons gained considerable attention when, in an address before a group of University of Chicago students, he asserted no man could make a million dollars honestly within the span of life solely from the profits of merchandise. In 1913 he gave his five years' salary as chairman of the civil service board of the park commission to the Lincoln park police pension fund.

Mr. Simmons served at one time as a member of the small parks commission of Chicago. He was president of the New England Society of Chicago, a director of the Alliance Française, and a member of the Cliff Dwellers, Union League, Skokie Golf, and City clubs. He was a member of the senior council of the Chicago Association of Commerce.

Miss Dorothy Dalton, the actress famous the world over for her beautiful complexion, says: "Any girl of woman can have a beautiful, young, white complexion and smooth, unblemished skin like mine if they will follow my advice and use Dermivul, a simple toilet preparation. I use it because it imparts instant beauty, is easy to apply, absolutely harmless, and has a marvelous effect upon the skin. One application proves it." Be sure to read Miss Dalton's interesting story of how quickly she acquired a beautiful complexion, soon to appear in this paper. In the meantime, get Dermivul at any toilet counter and try it today; you will be delightfully surprised.

North Shore Towns Celebrate the Fourth

Evanston celebrated the Fourth of July yesterday with a community sing at Patten gymnasium at Northwestern university, held by the university and directed by Osborne McConathy. A chorus of 400 students gave special numbers and led the audience in singing. Mayor Harry P. Pearsons of Evanston made an address.

At Winnetka, following a picnic, residents attended a street dance in the evening. A picnic was also held at Winnetka and there were boat races for young and old. In Kenilworth a parade was held in the morning and there was a municipal fireworks display in the evening.

Miss Katherine Edger of Detroit, who spent last winter in Washington with her mother, was maid of honor at the wedding Saturday in Cambridge, Md., of her cousin, Miss Katherine McComas Wagon, to Lieut. Ralph Hudson Wooten, air service, U. S. A.

K. of C. Speaker Hits Method of Training Our Foreign Born

By CHARLES H. GABRIEL JR.

Unintelligent Americanization has spoiled efforts to make good citizens out of the foreign born, according to Michael J. Downey of Boston, speaker at the closing session yesterday of the vocational educational bureau of the Knights of Columbus at the Auditorium hotel.

"The work of Americanizing those born abroad has been spoiled by unintelligent efforts," said Mr. Downey. "If we urge them to cut off all ties with their native lands we are tempting them to lose altogether the sense of patriotism that is one of the best things in us."

"The constitution of the United States cannot preclude a naturalized citizen loving his native land, providing he obeys the laws and acquires the spirit of his adopted country."

Plans for vocational training for former service men and others will be carried on without any further campaigns for money, William J. McGlinchey of New York, supreme secretary, announced. "The country is tired of drives, he said, and the organization has no intention of adding to their number."

Mrs. Robert Leslie Alton Dies in Hospital Here

Mrs. Robert Leslie Alton died yesterday at St. Luke's hospital of cerebral meningitis.

Mrs. Alton was one of the most popular of the younger matrons in Chicago society.

Before her death, Mrs. Alton was suffering from a long illness.

Mrs. Alton was born in Little Compton, R. I., on Sept. 8, 1865, and came to Chicago in 1881 as representative of the Crosby Steam Gauge and Valve company. Later he founded the company that bears his name. He had taken an active interest in public affairs for many years, and it was largely due to his efforts that the recent extension and improvement of Lincoln park and the lake front were effected.

MARSHALL FIELD & COMPANY

THE STORE FOR MEN

Men's Neckwear from Lyons—Source of the World's Choicest Silks

The City of Lyons, at the junction of the Rhone and the Saone, uses its great natural waterpower principally in the production of fine silks.

The silk industry in this locality received its impetus from the luxury of the Bourbon Kings, and has grown until it has won a deserved leadership not alone from the standpoint of quality but in originality of design as well.

The inherent artistry of the French people, in both design and color, is clearly demonstrated in these fine Scarfs, which are but recently received.

First Floor.

Jacquard Scotch Madras Shirts

Of the finest plain and fancy madras, imported from Scotland, and made up in our own workroom, giving a standard of workmanship the equal of many custom-made garments.

First Floor.

Golf Hose in Heathers from the Place Where the Heather Grows

In the Scotch Highlands, within a stone's throw of Edinburgh Castle, the making of fine Golf Hose has long been a home industry where quality is a family word passed down from generation to generation.

The beautiful colorings of the heather, the granite boulders and the feathers of game birds give inspirations to these workers which they develop into many unusual patterns.

From this source we have obtained Golf Hose of a decidedly distinctive character, and in a greater variety than we have ever before known.

First Floor.

Shoes Hand-Made in Our Factory

Made on custom lasts by our own workmen, these give us a line of Shoes which are the best that can be made, yet moderate in price, considering their character.

Second Floor.

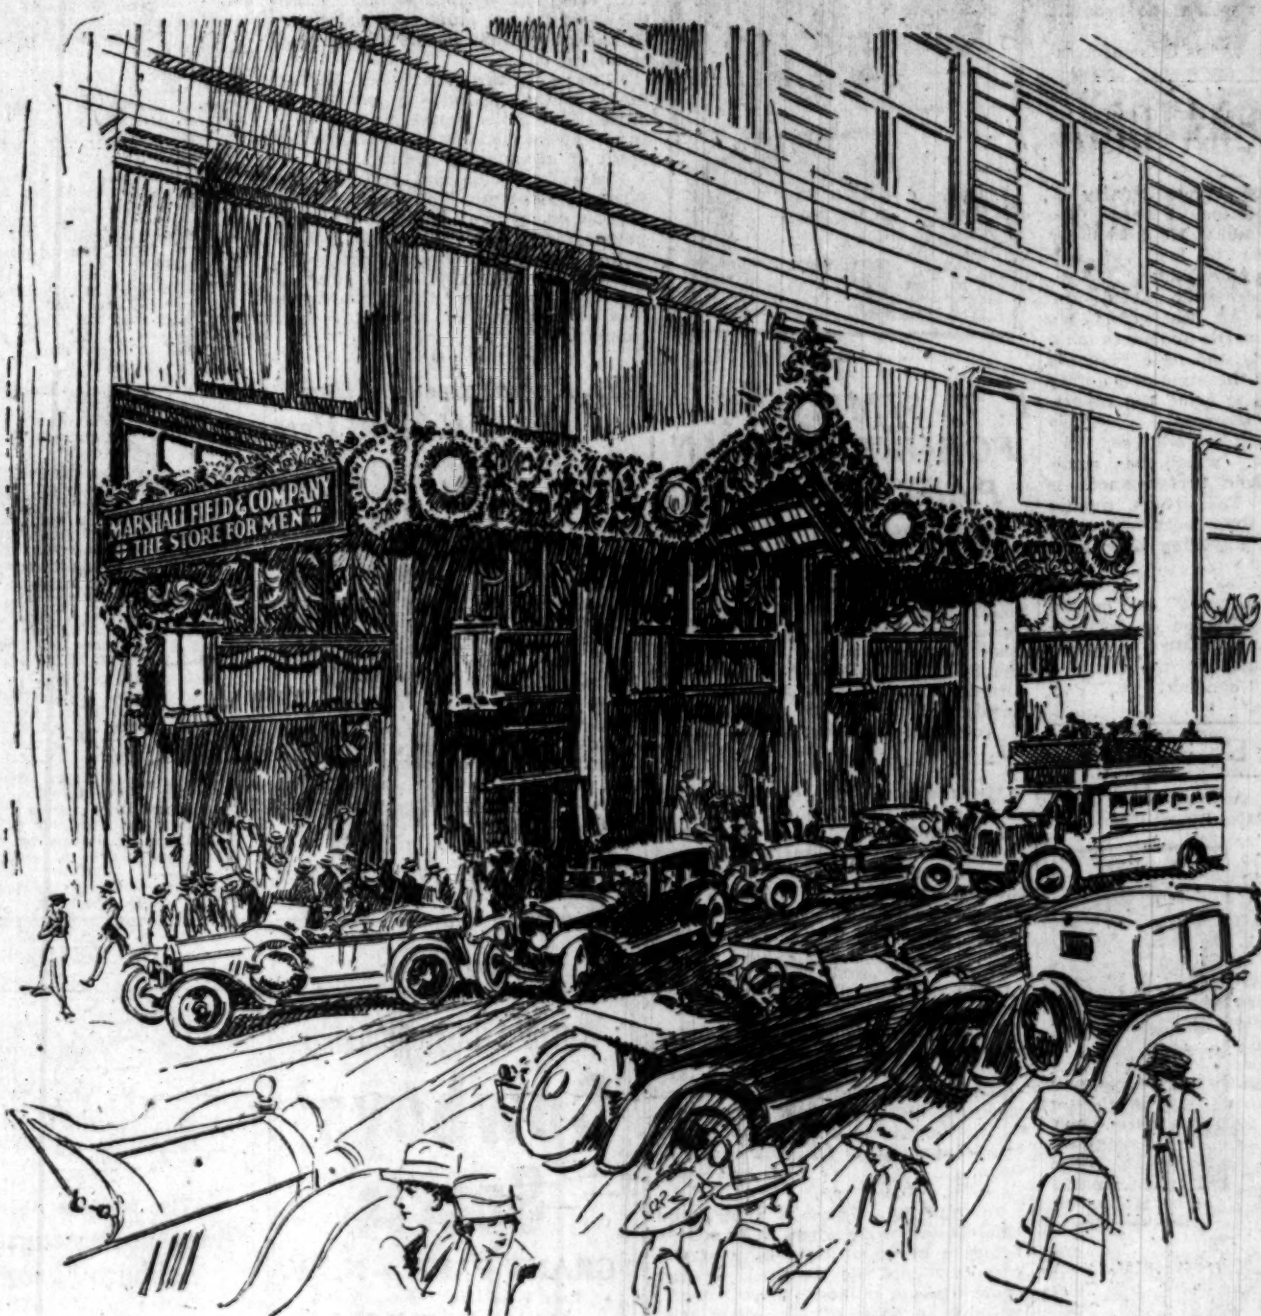

Distinctive Hats from St. James Street's Most Exclusive Shop

Only a limited number of fine Hats could be obtained from this shop, which makes Hats to order for the most distinguished clientele known, including many of the crowned heads and nobility of Europe.

Still other representative English makers have supplied The Store for Men in some quantity, often combining our ideas with theirs to make an exclusive Marshall Field & Company product.

First Floor.

The STORE for MEN Has Many Interesting Things for the Elks

WE ARE GLAD that, at this very time when so many out-of-town visitors are here, we are able to present such extensive displays of the finest things worn by men.

The world's accredited sources of supply are searched diligently to provide the unusual, the distinctive, the rare bits of merchandise which our discriminating clientele appreciate. Countless foreign and domestic markets give up the cream of their production to care for this demand—a demand so great that it is possible for us to offer this exclusive service with the resulting economy of large production.

We specially invite the Elks to come to *The STORE for MEN* and inspect the truly unusual things which we have collected.

Our Finest Suits Are Showing Very Marked Reductions

Clothes of all year around weight for men and young men, made of finer fabrics than one is accustomed to find in Suits ready for service—many of them exclusive patterns of imported woolsens.

Every garment is made the Marshall Field & Company way—according to our exacting specifications, which means better fit, better style and better service.

At these sharply reduced prices, a worth while opportunity for very marked savings is offered.

Third Floor.

Motor Utilities and Camping Outfits

Unusual would be the motorist's need that could not be satisfied from the varied assortment of accessories carried in this Section.

Fifth Floor.

A Made-to-Measure Service

Clothing, Shirts and Shoes made to measure for the man who demands the little individual touch that only custom service can give.

Second Floor.

Two-Piece Suits Light in Weight—Wherein Fine Tailoring Is Apparent

In the past, Summer Suits of coll cloth, Palm Beach, silk and other lightweight fabrics have been made with little regard for style or tailoring.

But this year we are showing 2-piece Suits that have forced many people to change their ideas regarding the style and finish of this type of clothing.

Models as smart as can be found in the finest wool clothing and tailored as carefully offer a combination which will win the approval of men and young men.

Fourth Floor.

Fine Hand-Made Golf Clubs

For golfers who appreciate the finest golf equipment, a complete line of hand-made Clubs is carried in our Athletic Goods Section.

Fifth Floor.

Hyde Park Presents Walking Sticks and Gloves in an Endless Display

The well dressed man of London considers his Walking Stick an important part of his daily life. It is always with him—he changes it with his clothes; a rough blackthorn for a country tramp; a barked malacca for city streets; a polished ebony for evening wear.

We have collected, from the best makers of Walking Sticks in England, the choicest specimens of their art.

Gloves are also considered essential in all seasons of the year. A number of hand-sewn Gloves, which we are showing, represent the style generally accepted in London.

First Floor.

Underwear—English Hand-Loomed

Shirts and Drawers of an exceptional quality, hand-loomed, hand-buttonholed, buttons sewn on by hand; and fabrics of cotton, wool, and silk and wool that are unusually soft.

Second Floor.

Dressing Gowns and Pajamas as Seen in the Shops of the Rue de la Paix

The Rue de la Paix, in the heart of fashionable Paris, contains, in its short length, many shops devoted exclusively to the most luxurious apparel for men.

Sensing a growing appreciation of merchandise of this character among men of this country, we have brought to The Store for Men many of the things which have excited special interest in these exclusive shops.

Among them are rich silk Gowns with large chrysanthemum and other striking patterns, and Pajamas of silk with contrasting collars and cuffs in striped and figured designs.

Dressing Gowns, Fourth Floor. Pajamas, First Floor.

Motor, Golf, Fishing, Riding Clothes

Varied are the assortments of clothes pertaining to sports. Practical for their purpose and yet, at the same time, tailored with a certain character and smartness.

Fourth Floor.

Handkerchiefs and Hosiery that are Worn at the Longchamps Races

The Longchamps Race Track is recognized throughout France as the rendezvous of the fashionable set and the center of smart dress.

Some of the smaller things which are popular at the present time have been brought to this Store. Among them are sheer linen Handkerchiefs, showing cut-work monograms, and French lisle Hosiery in new striped effects.

S. RIGHT BOTH 1776 AND 1917 EDDES ASSENTS

Presents Pershing with
London Sword.

Washington, D. C., July 5.—Great Britain does not forget those who have sacrificed themselves for the cause of freedom. Sir Auckland Geddes, British ambassador to the United States, today presented to General Pershing a sword which was used by the British in the battle of the Marston in 1141. The sword was presented to the general as a token of the British appreciation of his services in the war of 1917.

The sword was presented to the general as a token of the British appreciation of his services in the war of 1917. The sword was presented to the general as a token of the British appreciation of his services in the war of 1917.

GETS JEWELLED SWORD

Leader of American Armies in
France Honored by City of
London.

GEN. JOHN J. PERSHING.

There is none now, I believe, on either side of the Atlantic, he said, who does not think that they were worth the sacrifice.

Though neither you nor we are of English stock, the memories of the war are a possession of all your hearts as they are a living memory to us.

Pershing accepted the sword in the name of the men of America who fought with the men of Great Britain and the men of France.

The sword was presented to the general as a token of the British appreciation of his services in the war of 1917. The sword was presented to the general as a token of the British appreciation of his services in the war of 1917.

There's a Touch of Tomorrow In All Cole Does Today

Aero-EIGHT Hot-Blast Manifold Assembly

Operation of Aero-EIGHT Hot-Blast Manifold

The Cole Aero-EIGHT Manufactures Its Own High-Test Gas at No Additional Cost

Perfect Combustion—Smoother Running—Quicker
Get-a-way In Cold Weather—Less Carbon With
Aero-EIGHT Hot-Blast Intake Manifold

Quick to realize that in order to get the maximum motor car efficiency something must be done to combat the handicaps imposed by the rapidly deteriorating fuel supply, Cole engineers developed a superheated intake manifold.

Through this device, the gasoline was heat-treated before entering the carburetor and properly vaporized to insure smooth running, quicker get-a-way in cold weather, and the elimination of carbon deposits usually associated with the use of low-test fuel.

From this early vaporizer the present highly efficient HOT-BLAST MANIFOLD of the Aero-EIGHT was evolved.

This new device manufactures high-test gasoline as it is required by the motor. There is no additional drain on

the fuel supply carried by the car—no subsidiary appliances, nothing to get out of order, nothing to require adjustment.

The heat expended from the time of the first explosion of the engine is utilized to accomplish the results, being concentrated where the fuel is most susceptible.

The quick get-a-way of the Aero-EIGHT, its smooth operation on low throttle, its exceedingly high mileage per gallon of gasoline, its freedom from carbon annoyance, its adaptability to varying conditions of temperature and its ability to give maximum efficiency even though the poorest test fuel is used are all traceable to the Aero-EIGHT HOT-BLAST MANIFOLD. It is a true revelation.

First, let us take you for a ride in an Aero-EIGHT that you may appreciate its superior performance. Then let us show you how the Aero-EIGHT HOT-BLAST MANIFOLD manufactures its own high-test fuel while the car is running

RAIL CHIEFS TO MEET HERE AND WAIT PAY EDICT

On July 19 leaders of the "Big Four" railroad brotherhoods from all parts of the country will open a general joint conference in Oriental conference. On July 20, as announced, the United States railway wage board will hand down its decision fixing the new wage scale for the various rail crafts of the country. The scale will be retroactive to May 1.

The Chicago meeting has been called in order that the union representatives may be together at the "railroad hub" of the nation when the news is received. Through this conference every local organization will be able to make its decision known at once. Through the union heads gathered here there will go up either a shout of approval or a roar of dissatisfaction. Whether the latter would mean a national strike and tieup cannot be foretold, but the gathering of the rail employees' chieftains at the time stated is regarded as ominous.

Son and Widow Fight Will Disinherit Them

Syracuse, N. Y., July 5.—(Special.)—Disinherited four days before the death of William W. Hout, oil dealer, his widow, Mrs. L. Esther Hout of Cortland, N. Y., and her son, Clarence J. Hout of Baltimore, Md., today started suit to break the will made four days before Hout's death, May 5. The will gives the \$150,000 estate to his sister, Mrs. Mary T. Taylor, and her children, of Chicago, and to Miss Maude McNamara of Cortland, a stepdaughter.

ONE MINER SLAIN FROM AMBUSH IN ATTACK ON UNION

Williamson, W. Va., July 5.—One man was killed and three are known to have been wounded in a battle late yesterday at Roderfield, W. Va. According to the stories told, the miners at Roderfield formed a union organization on Friday, and Sunday afternoon were holding a meeting in the open air when they were fired upon from the brush on the mountainside.

Many of the miners who were armed sought cover, it was asserted, and returned the fire, the shooting lasting for some time. It has not yet been made clear just who made up the attacking party.

Telegraph and telephone wires through that section were put out of order Friday by a series of storms, and until communication is restored the authorities say they will know little of the details.

Col. Jackson Arnold, superintendent of state police, is out of the city, and it could not be ascertained from state officers whether troops will be sent into McDowell county.

Morrison Leads Gardner in North Carolina Primary

Raleigh, N. C., July 5.—Cameron Morrison of Charlotte today was leading Lieut. Gov. O. Max Gardner of Shelby for the Democratic nomination for governor by 5,600 votes on returns from 73 of the 100 counties in the state, according to figures compiled by the Raleigh News and Observer. The count stands: Morrison, 50,757; Gardner, 45,200.

Representative Hannibal Godwin has conceded that Homer L. Lyon has defeated him for reelection in the Sixth district.

Longshoremen Give Up Strike at Philadelphia

Philadelphia, Pa., July 5.—The longshoremen's strike was settled today by a decisive vote of the men who have been out more than a month. Nearly 4,000 men voted on the question. They agreed to return to work at the old scale of 80 cents an hour, \$1.90 for overtime, and \$1.50 for Sundays and holidays.

Eight Killed in M., K., T. Train Wreck in Oklahoma

McAlester, Okla., July 5.—Eight persons were killed, twelve seriously injured, and ten others suffered minor injuries when a Missouri, Kansas, and Texas freight train smashed into the rear end of a carnival company's special in the Atoka yards, south of here, last night.

PENN. SHOPMEN STRIKE OFF IN PUBLIC INTEREST

Philadelphia, Pa., July 5.—The strike of shopmen of the Pennsylvania system, scheduled for today, has been deferred indefinitely, according to an announcement made by Harry S. Jeffery, leader of the six local allied shopcrafts.

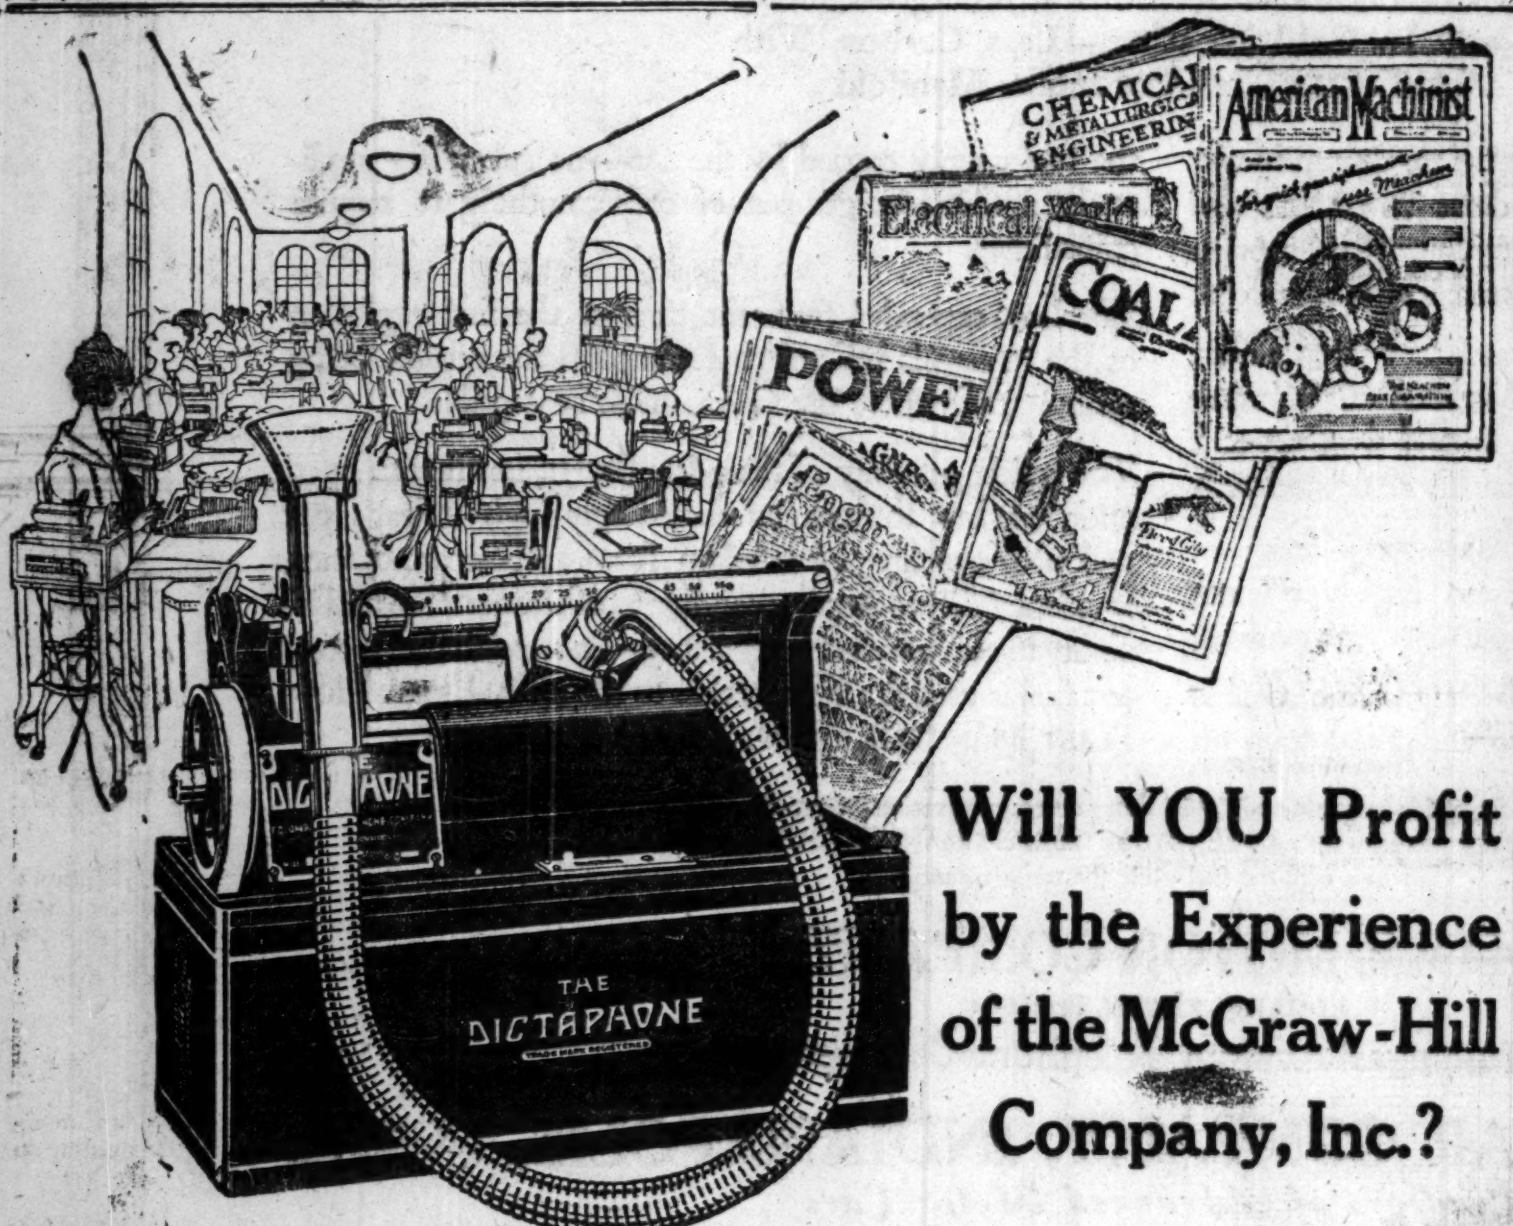

Decision to call off the walkout was reached after conferences of labor leaders with government officials and W. W. Atterbury, vice president of the Pennsylvania railroad.

Jeffery said he and other leaders had concluded that the public was a bigger factor than the principles at issue between the railroads and the shopmen, and they have placed their case before Gen. Atterbury, confident he will adjust the grievances to the satisfaction of all concerned.

THE FINEST 'FLAVORED TEA' "SALADA" is hill-grown tea. The leaf is small and tender with a rich, full and delicious flavor.

These Dictaphones are used for every variety of work; from ordinary correspondence to exacting editorial dictation in which accuracy is vital.

It would be hard to devise a severer test for The Dictaphone

than the requirements of this publishing house, where speed, accuracy, and efficiency are absolutely essential.

Your office may be large or small. No matter. We are ready to install Dictaphones so that you, too, can see for yourself why the McGraw-Hill Company and other representative companies are constantly adding new machines. Are you ready for a demonstration?

THE DICTAPHONE

"The Shortest Route to the Mail-Chat"

The Sharples Separator Co., Chicago, Ill., says: "We most heartily endorse The Dictaphone as being the one piece of office equipment that stands pre-eminently first. It saves time of both typist and the dictator, and permits the executive and the clerk to dictate their letters as rapidly or as slowly as they wish."

St. Louis & San Francisco Railroad, St. Louis, Mo., says: "We have only praise for the 250 Dictaphones which are used in our various departments. They save time and money. We consider The Dictaphone a useful and profitable office convenience."

Carborundum Co., Niagara Falls, N. Y., Mr. G. H. Huntley, of the Order Department, says: "We are using 9 Dictaphones in our Order Department. We find that these Dictaphones are not only saving time, but also giving entire satisfaction for this class of work."

Western Union Telegraph Company, J. H. Willever, Vice-President in charge of Commercial Dept., says: "The Dictaphone is an extensive use in our various departments and is giving good satisfaction. After The Dictaphone was tried out experimentally in the first instance, a short experience showed it to be a time-and-money saver. Our use of The Dictaphone has grown steadily."

Phone or write for convincing demonstration in your office, on your work

Playing No Favorites

THE crude petroleum market plays no favorites. All refiners come to it on equal terms.

The Standard Oil Company (Indiana) is no exception to this rule. It buys the crude oil it needs in the open market and pays the market price.

Only an infinitesimal part of the crude oil used by the Standard Oil Company (Indiana) comes from wells in which it has even an indirect interest.

The Standard Oil Company (Indiana) concentrates its attention upon the highly specialized business of refining crude oil. It sticks to its knitting.

In the past four years the demand for the refined products of petroleum has more than doubled, while the increase in the production of crude has been only about 25 per cent.

This growing demand, plus the increased cost of drilling and equipping wells, has caused the price of crude petroleum to advance.

The market price of crude oil is a dominant factor in the price which the Standard Oil Company (Indiana) charges for gasoline. Wherever possible the Company anticipates the trend of the market in making its contracts for crude petroleum. Whatever benefits it derives accrues to the public in lower gasoline prices.

The price charged by the Standard Oil Company (Indiana) for gasoline has advanced, but not to the extent warranted by the advance in the cost of crude oil.

The cost of this commodity to the consumer would be very much higher were it not for the fact that the Standard Oil Company (Indiana), through more efficient refining methods, is able to utilize and make into useful products all portions of the crude petroleum.

The extreme economy and efficiency of the Standard Oil Company (Indiana) refining and distributing methods have acted as a deterrent upon the upward trend of gasoline prices.

This Company gives its customers in the 11 Middle Western states which it serves the benefits derived from any savings which it effects in the refining of gasoline and other petroleum products.

Standard Oil Company (Indiana)

910 So. Michigan Ave., Chicago, Ill.

This Disease Can Be Driven Out

The extinction of syphilis from American life has more prospect of concrete fulfillment than is the case with any other of the four great modern plagues.

Tuberculosis, while a disease of known cause, lacks the means for such effective treatment and control of contagion as are available in syphilis. Cancer is still shrouded in obscurity—of unknown cause, of terrific fatality, definitely remediable only in its earliest stages, little understood as to its prevention.

Gonorrhea, which is preventable, but with the long periods of uncontrolled infectiousness and the long train of complications following upon a neglect which the disease itself encourages in every possible way, lacks also the striking, effective, specific cure.

Syphilis alone of the four is at our mercy. There is a method of prevention, the efficiency of which is very high; there are methods of treatment which bid fair to cure nearly every case if taken in time; there are methods of recognition in the form of blood and other tests which have some of the smallest margins of error in medicine; there is a control of contagion which is more absolute, immediate and effective than the most rigorous quarantine—all these point to the possibilities of extinction, the realization of which is but a matter of time.

The public must face the facts—for nothing stands out more clearly than the fact that our refusal to face these facts—not our inability to control the disease—is responsible for the present situation.

Inexpensive, abundant, effective early treatment and preventive measures will, from the medical side, enable us to hold the situation in the hollow of our hand. It is also essential that the medical solution of this problem be touched with idealism and inspired by great principles such as characterized the formation of the Public Health Institute, Inc., by big, public-spirited business men of Chicago.

This institution invites inquiry from all those suffering with syphilis or gonorrhea. It provides its patients with modern medical treatment reinforced by proper laboratory service—all for a cost well within the reach of everyone.

WHEAT MEN FIX MARKET OPENING DETAILS TODAY

BY CHARLES D. MICHAELS.

All the banks and exchanges were closed yesterday.

Plans for reopening of the trading in wheat futures are to be completed within the next two days. A meeting of the exchange committee of sixteen, representing the eight leading exchanges, will be held here today to formulate arrangements for the reopening, which are to be given to the advisory committee of thirty-one, which is composed of leading interests, including the grain exchange, millers, bankers, and others, who will meet tomorrow to take up the suggestions of the exchange committee and make any changes that are regarded as necessary. At a recent meeting of the exchange committee it was suggested that wheat trading be reopened July 15, with December delivery favored. More latitude is to be given in the way of deliveries here and on all exchanges, most of which have already been arranged for.

The question uppermost in the minds of the wheat traders and producers is what will the price be at the start and what is likely to be the course of values this season. Cars are scarce all over the country, and especially in the wheat sections, where there is a large carry over of old wheat pressing on the market at the same time the new is ready to move. This, it is expected, will cause an unusually wide spread between the price paid to the producer and that at which it sells in the terminal markets. Were transportation normal and it possible to accumulate large stocks at terminal markets to act as a balance wheel in price making, the margin between the price the farmer gets and that at the terminal market would be minimized, as the exchanges under ordinary conditions have minimized the margin to the lowest possible limit.

World's Conditions a Factor.
"World's conditions do not promise much in the way of low prices," say Simon, Day & Co. in a special review of the world's wheat situation. With the aid of economy and earnest toil export prices may be prevented, as the latter is the panacea for all ills. In part they also say:

"The grain trade is anticipating a good crop and it is daily becoming more impressed with the necessity of an open market. The foreigner will want some wheat, and so will the miller, but neither will buy as their needs dictate until they are assured against any loss by means of hedging facilities. Agitators and those who know little or nothing about the fundamental principles of the grain market speak of the speculative element and are anxiously awaiting the reopening of the wheat market. The grain trade, the miller, the banker, and the producer and the government favor the resumption of wheat trading. They all need the speculation which is willing to take the risk involved in a 'future' market. He supplies the handler of the cash article who is not concerned in any speculative profit with a form of Lloyd's to insure against losses. Where would this country be economically without speculation? Are not insurance companies speculating on the fragility of the human life or on the inclemencies of the elements?"

"Supply and demand will make the wheat price, not the miller, but that of domestic conditions, but that of the entire world. Never before in the history of the world has the cost of living

SIX MONTHS' RECEIPTS

Marketing of grains at primary points for the first six months this year aggregated 238,177,000 bu. the smallest since 1912. There was a decrease of 25,376,000 bu. from last year and of 75,670,000 bu. from 1918. There was a loss of 60,400,000 bu. from 1919. Receipts were the smallest since 1911, with the exception of 1919. Wheat receipts exceeded last year's by around 23,000,000 bu. Oats were the smallest since 1912. Corn receipts increased 20,735,000 bu. from last year, and were 325,189,000 bu. and oats decreased 27,706,000 bu.

Comparative receipts for the last seven years, with the last three figures omitted, follow:

	Wheat	Corn	Oats	Total
1920...	108,092	116,917	85,229	310,238
1919...	83,923	90,184	109,955	284,062
1918...	43,628	180,701	147,901	472,230
1917...	125,014	181,303	111,408	417,725
1916...	178,221	139,730	133,353	451,304
1915...	110,277	131,945	105,799	348,021

been used more forcibly as an argument for higher prices. Wheat and coarse grain prices often move together, but the influence that affect the former are likely to be more forcible, and people are more apt to dig deeper into their pockets for the wheat bread than for cattle feed.

Europe is Pessimistic.
Europe naturally takes a pessimistic view of the situation. This season supplies are the subject of anxiety on the continent. In Europe the wheat has been turned gray, and people there have daily evidence of the greatest economy practiced in the use of wheat. Broom-corn is less pessimistically inclined, although he does not find indications that the people are unduly alarmed.

Australia and Argentina have sold their surplus. Beneficial rains have improved growing crop conditions in wheat states of Australia except New South Wales, where they are late. Exportable surplus, if any, this season is a matter of uncertainty. Argentina's new crop is making headway and a good surplus is anticipated. India has theoretically a surplus, but her population has been enriched by the war, and it is outbidding England. It should furnish some 40,000,000 bu. to Europe, but there seems to be no intention of making shipments until the new crop is seeded in October. The Russian surplus is as much of a myth as ever, and cannot be depended upon. Roumania and Bulgaria have released goodly quantities of corn for export, and this fact augurs well for the new crop. Italy will require imports of 70,000,000 bu.; bread rations of one-half pound daily are being maintained, as her crop promises 10,000,000 bu. less than last year. France has hopes for a really good harvest, and import requirements are placed at 16,000,000 to 24,000,000 bu. Germany's food situation is said to have improved, although bread rations will have to continue.

Depend on America.
Canada and the United States are the countries that will be depended on to ration Europe. Her import requirements have been placed at some 600,000,000 bu. The last government report gave the United States a crop of 784,000,000 bu. This, with the surplus of approximately 150,000,000 bu. should leave 300,000,000 bu. for export and a merchantable carry over, figuring about 430,000,000 bu. for seed and home consumption, providing present promise is maintained.

Our exports of wheat and flour for the first eleven months of the season just closed were approximately 55,000,000 bu. less than the previous season, or about 190,000,000 bu. Though foreign crops as a whole promise better, greater production will be needed to bring the return of the unused loaf.

Winnipeg was open yesterday and oats there declined 1¢, with trading light. October oats being down to 94¢ and December 87¢. July being slow at 11.21. Barley for July was 1¢ higher, \$1.52. Rye: wheat, 30 cars; oats, 25 cars; barley, 17 cars; flax, 31 cars. Last year: Wheat, 110 cars; oats, 45 cars; barley, 25 cars; flax, 3 cars.

6% Interest Allowed From July 1st

For the benefit of Investors who have not yet secured their First Mortgage Investments, this bank will allow Interest from July 1st on all Bond purchases made on or before July 10th.

The Goodyear Tire & Rubber Company

HISTORICAL—Charles Goodyear, a hardware merchant of Philadelphia, after six years of experimenting, in 1838 discovered the secret of vulcanizing.

THE history of THE GOODYEAR TIRE & RUBBER COMPANY, the largest manufacturer of tires in the world, is an absorbing story of the development of one of nature's wondrous treasures into one of the industrial giants of the twentieth century.

Rubber trees, the source of india-rubber, are native to the tropical climate of Central and South America, Africa and the East Indies. In the hot, steaming lowlands along great rivers the rubber tree thrives, the valley of the Amazon being the chief source of supply on the American continent. The cultivation of rubber trees is carried on extensively where favorable soil, atmospheric conditions and an abundance of rainfall prevails.

The inherent strength of THE GOODYEAR COMPANY is the fact that, in addition to the raw material available in the open market, it has assured itself of a dependable source of supply from the large acreage planted to rubber trees in Sumatra, one of the chief islands in the East Indies. The company also operates its own cotton mills at Goodyear, Conn., and Los Angeles, Calif., and owns 28,000 acres of cotton lands in Arizona, with five ginning plants, which assures it of an independent position in regard to the basic raw materials used in the manufacture of tires and rubber goods.

As an indication of the growth of the business, it is stated that in the last twelve years the company earned net \$88,053,389, out of which \$23,342,650 has been paid in dividends and over \$64,000,000 reinvested in the business. Cash dividends of 12% have been paid annually since 1908 on the common stock and stock dividends have been paid as follows: 1909, 100%; 1910, 100%; 1912, 100%; 1914, 20%; 1916, 100%; 1920, 150%.

We are offering the unsold portion of \$20,000,000 7% Cumulative Preferred and of \$10,000,000 Common Stock.

Lord Drydock Corporation

NEW YORK

First Preferred 8% Cumulative Stock

Par Value \$100. Preferred as to dividends and assets. Dividends payable July 1, 1920, and quarterly thereafter.

Exempt from Normal Federal Income Tax.

Authorized: \$5,000,000
8% 1st Preferred Stock, 500,000 shares
7% 2d Preferred Stock, 500,000 shares
Common Stock, shares 100,000

The Lord Drydock Corporation has taken over the ship repair plant of the Western Dry Dock Co., in New York Harbor, the plant of the Lord Construction Co., at Field's Point, Providence, R. I., and the plant of the Marine Engineering & Dry Dock Co., at Providence. In addition, the Company has under construction a new ship repair plant on 2,000 feet of valuable waterfront in New York Harbor.

The earnings of two of the above properties for the years 1918 and 1919, before Federal Taxes, were at the rate of nine times the dividend requirements of this issue, and after completion of the new plant total net earnings are estimated at not less than \$1,250,000.

Net assets are equal to \$343 per share. Equity in New York Harbor real estate owned in fee alone is equivalent to \$160 per share.

Price, par and accrued dividend, yielding 8% with bonus of 4 shares of common stock with each 10 shares of preferred.

Safety or a High Rate of Interest?

IT IS an old investment maxim that safety and a conservative interest rate go together, and that an exorbitant yield is a signal for caution. This is particularly a time to remember this fact.

An unduly high rate of interest on an investment often distracts the investor's attention from other qualities not so desirable. With the eyes fixed on yield rather than on security, the investor sometimes fails to notice that there is no convincing evidence offered of sure payment of principal and interest.

The return of your capital unimpaired when due, together with prompt payment of interest, is of more importance than a promise of an unusual net return on your investment.

The Straus Guide to Safe Investment lists a great variety of sound first mortgage serial bonds, safeguarded under the STRAUS PLAN and amounting to \$34,000,000, yielding the safe and conservative interest rate of 6%.

In addition to 6%, with 4% Federal Income Tax paid, these bonds yield satisfaction and peace of mind. Their prompt payment in cash on the day due is assured by the rigid provisions of the STRAUS PLAN. Call or write and specify CIRCULAR L-435

GENERAL MOTORS STOCKS VALUED AT \$485,000,000

According to latest figures (June 15) outstanding common stock of the General Motors corporation now amounts to 16,239,029 shares, without par value, to this the \$219,858 shares which have been taken up by stockholders or other purchasers on July 1, the total outstanding shares will then be 15,518,858 shares, a market value at present quotations of more than \$485,000,000.

Attention is called to the fact that the 1,219,858 shares to be taken up by July 1, \$219,858 worth—have been purchased by the General Motors Corporation, in association with Canadian Investors, Ltd., of Montreal, Canada, and the balance, amounting approximately to \$28,000,000, has been underwritten by J. P. Morgan & Co.

The new money, amounting to \$44,000,000, now being put into the company, is being used "for the growth of the business, and particularly for the development of the truck, tractor, and farm equipment lines."

Besides the above mentioned common stock, the company has outstanding the following senior securities, ranking ahead of the common—7 per cent debenture stock, \$24,250,000; 6 per cent debenture stock, \$60,485,000; 6 per cent preferred stock, \$16,182,400.

Earnings of Sugar Companies.

T. H. St. Louis, Mo.—The Miami Sugar company earned 10 per cent on \$10,000,000 of common stock in the year ended Oct. 31 last, compared with 1914 per cent on \$1,960,000 in the year previous. Earlier reports not available. The Punta Alegre company's fiscal year closes May 31 and its report for the last year is not yet available. In the year ended May 31, 1919, it earned \$20.32 a share on its common stock of \$50.00 par and \$11.39 in the previous year. Presumably the forthcoming report will make a better showing. Cuba Cane and Cuban American have been reviewed. Send stamped envelope for clippings if you wish them.

Mississippi River Power.

J. L. Earlville, Ill.—The Mississippi River Power company is now earning the interest on its first mortgage bonds nearly twice and is covering its total fixed charges one and one-half times. In the year ended April 30 net earnings were \$1,882,146 and surplus after charges was \$657,420, compared with \$503,742 the year before. Since that report was issued the company has obtained advances in rates at St. Louis, insuring a large increase in earnings. The first mortgage bonds are now in a strong position.

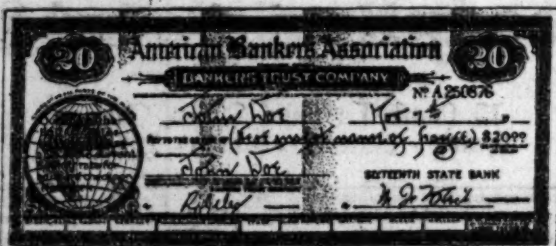

FLOUR AND GRAIN SHIPMENTS

Grain shipments from Chicago by railroad for the six months this year decreased 16,559,000 bu. while flour increased 1,203,000 bbls and provisions decreased 275,934 tons, as compared with last year. Grain shipments were the smallest in over twelve years. Flour about an average and provisions the second largest on record. Details for seven years follow:

	Flour, bbls.	Grain, provisions, tons.
1920	3,947,000	50,083,000
1919	2,445,000	72,442,000
1918	3,582,000	57,297,000
1917	4,545,000	72,266,000
1916	3,708,000	123,502,000
1915	2,804,000	119,525,000
1914	2,098,000	80,912,000

Americans Traveling To Europe: This Is Important To You

A special European service has been inaugurated by the Bankers Trust Company to accommodate travelers carrying "the best funds for travelers":

"A. B. A." American Bankers Association Cheques

By this service it is possible on arrival in Europe to exchange "A. B. A." Cheques purchased in America for other "A. B. A." Cheques stamped with the equivalent in sterling, francs or lire, based upon the exchange rate of the day the Cheques are exchanged, thus giving the traveler the advantage of the best rates the market allows.

"A. B. A." Cheques are safe because, if not countersigned by the rightful owner, they cannot be used by anyone else in case of loss or theft.

They are accepted readily in payment of bills at hotels and shops and in purchase of transportation tickets in any civilized land.

"A. B. A." Cheques may be obtained at nearly any prominent American or Canadian bank.

THE CITY OF JACKSON is an important industrial center, being served by the Michigan Central, New York Central, Grand Trunk, and Cincinnati Northern Railroads. THESE BONDS constitute a direct obligation of the entire City and are payable from an ad valorem tax against all taxable property therein. The proceeds of the issue will be used for street, water and other improvements throughout the City.

Take Care instead of chances

That is the sure way to accumulate money.
The chance of big returns is tempting, but the certainty of good returns is the foundation of every fortune.

In the final analysis it is what you have that counts—not what you are "going to get."

We offer a wide selection of sound First Mortgage Bonds, which we have, after careful examination, purchased with our own funds.

They may be purchased outright or on time.

Denominations, \$100, \$500, \$1,000.

Have You Thought

of the many advantages which the chain store systems possess? Among them are the following:

- 1—They do business on a cash basis.
- 2—They have no bad debts.
- 3—They avoid the expense involved in maintaining expensive credit and collection departments.

Send to-day for our series of letters, CH-32, which contain many important chain store facts.

Chicago

Proposals for range boilers, water closet tanks, steam traps, valves, pipe fittings, flexible joints, leaders, air handles, hammer handles, spoked, glass, drain boards, bakery sheets, gratings, aluminum ware, dinner knives, cutleryware, dish pans and frying pans. Sealed proposals will be received at the office of the General Purchasing Officer, The Panama Canal, Washington, D. C., until 10:30 o'clock a. m. July 10, 1920, at which time they will be opened in public for furnishing the above mentioned articles. Bids may be obtained from this office or the office of the General Purchasing Officer, Agents, 24 State Street, New York City; 608 Common Street, New Orleans, La.; and Fort Mason, San Francisco, Cal.; also from the United States Engineer Office in the principal cities throughout the United States. A. L. Fink, General Purchasing Officer.

HIGH YIELD

That is the condition as demonstrated by the list we have prepared for July investment.

The July purchase sheet shows rates of return which tend to offset the present high cost of living.

This circular should be of value to investors; it will be sent upon request for CH-310.

Notice to Chicago Industries

The Peoples Gas Light & Coke Company announces the removal of its Industrial Heating Laboratory and Sales Rooms from 122 South State Street to the Main Office, 122 South Michigan Blvd., where larger quarters have been provided for the growing business of this department.

At this location you will find a competent corps of sales engineers ready to assist you in solving your heating problems. USE THIS SERVICE.

Write or call the Factory Appliances Department, Wabash 600, Local 26.

The Peoples Gas Light & Coke Company

The more you know about the type of security you invest in, the less liable you are to make mistakes. Every Mortgage Bond investor should have a copy of this Booklet.

Cleveland, O. Plant, 700 E. 12th St. & Gen. Sales Factory and Main Office: Lansing, Mich. Chicago Office: 88 Old Colony Building.

TIME FOR YOUR UMBRELLA AND RAINCOAT

FROM the most reliable sources information comes that the financial barometer is pointing to storm. Dark clouds are gathering. Already a few drops of rain are falling—large and unexpected failures.

Are YOU protected as to your credits against the coming of a financial storm?

Now is the time to prepare—not after the trouble has started and your accounts have become bad.

"LONDON" Credit Insurance is your surest protection. It is not a hope or a promise—it is a guarantee. On our policy, you get your money within forty-five days sure, on failed accounts.

It is no time to "wait and see." Ask for our representative to call today. The request doesn't obligate you.

Profit Insurance

Figures are the profit insurance of a business. Where costs must be estimated in advance, the absence of exact information on some subject may result in large losses, or vice versa.

A review of your accounting system may enable us to recommend a system that will produce these vital figures more readily and more accurately.

Send for booklet "Getting the Figures."

SITUATIONS WANTED-MALE

[illegible]

This Chart Shows:

- The cost of manufacture jumps 71% or 42½¢ per thousand cubic feet.
- The selling price per thousand is increased 42% or 35¢ per thousand cubic feet.
- The company will still carry 7½¢ per thousand on the increased cost of manufacture.

100

In order that this very necessary increase may fall as lightly as possible on all consumers we urge the utmost economy in the use of gas. This request is made not only for the purpose of keeping the family gas bill as small as possible, but because gas making materials are scarce as well as expensive and we are taxed to the limit to maintain our supply equal to the demand. A lessened demand due to more rigid economy on the part of the consumer would materially help us in this difficulty.

Two New Shops

With the interests of the music-loving public in view we announce the completion of two Lyon & Healy Service Shops. One is in the heart of the Wilson Avenue shopping district; the other on the South Side at 63d Street.

These shops will give our North and South Side patrons all the conveniences of a neighborhood store, yet at the same time they will work in close conjunction with our main retail establishment.

OUR main building, with its unrivalled equipment, stock and facilities, including our ground floor Concert Hall, is thus supplemented by Service Shops of the most modern type.

We invite all our Patrons to avail themselves of this new development in our progress.
